SANTIAGO, Chile, Jan. 25.—At least 100 persons were killed and 500 injured when a violent earthquake rocked seven provinces of Chile today, according to radio advices received in Santiago.

Early reports hinting at a death-toll of 2,000 were believed vastly exaggerated. Damage estimated at 200,000,000 Chilean pesos (approximately \$10,000,000) was reported in the provinces of Talca, Linares, Nuble, Concepcion, Arauco, Milleco and Biobio.

Towns Affected
The towns chiefly affected were Talca, Linares, Chillan, San Carlos, Parral, Pailaheque and Concepcion, with the latter reported totally destroyed.

The quake started a series of devastating fires in Talcahuano, where ten were reported dead and at least 67 seriously injured. The towns of Loata, Coronel and Los Angeles were reduced to ruins but casualties were few.

Authorities estimated it may be more than a week before a full check-up of casualties and damage is possible. Virtually all means of communication with the quake region were disrupted.

Report 2,000 Dead
New York, Jan. 25.—Pan-American Airways officials in Chile advised their New York office today that about 2,000 persons are dead as the result of the violent earthquake which has leveled approximately 40 per cent of the dwelling in Concepcion.

The message did not state whether the dead were in Concepcion alone or in the entire area affected by the quake.

Pan-American officials have placed a plane at the disposal of the Chile government.

PA NEW OBSERVES

Just how some motorists are able to get about under present weather conditions is a mystery to Pa. New. A great many cars are observed, going about without chains on, and yet most of the streets of the city are a solid glare of ice. It is almost impossible to travel over them even with chains on, and well high impossible to stop suddenly. It is a mystery that there are not a great many more accidents.

Shovelling or sweeping snow off the sidewalks is becoming a daily task for residents of the city. Almost every night for a week or more has added to the snowfall in this city.

New Castle street department workers had about completed the task of hauling the snow and ice off the downtown streets, but appearances today are that the job may have to be started all over again.

With the present kind of weather prevailing, years ago, it would have been the signal for all of the sleighs and bob-sleds to be out on the highways. Wonder if any sleighs have survived to this day, or if any have been used recently? Do you know?

Not a very pleasant job this morning, was that of a Water Company (Continued On Page Two)

Attempt Of Germany To Force U. S. To Be Market For German Goods Halted

(International News Service)
WASHINGTON, Jan. 25.—The United States today bluntly rejected an attempt by Germany to force the American market to absorb huge quantities of German goods as a prerequisite to settlement of the Austrian debts.

In an exchange of notes with the Berlin foreign office, the United States insisted that Germany has a legal obligation to assume the Austrian debts.

Accused Of Discriminating
At the same time, Germany was openly accused of discriminating against American creditors.

The American government also declined to concede Germany's contention that it cannot assume re-

sponsibility for Austria's relief debts "because of their specific nature."

The sternly worded American note was delivered to the Berlin foreign office January 20 by Prentiss Gilbert, American charge d'affaires, on instruction of Secretary of State Cordell Hull. It rejected Germany's position set forth in a note of January 3. Both notes were made public for the first time today.

The Austrian debts, which cover three categories of obligations, total \$64,575,000. Of this the loan for post-war relief is the larger, amounting to \$26,000,000. The other loans are \$20,575,000 for the Austrian international loan of 1930 and \$18,000,000 in dollar bonds of Austrian political subdivisions and corporations.

Foresee Close Vote On W.P.A. Fund In Senate

WASHINGTON, Jan. 25.—A tug-of-war for votes started in the senate today over the issue of whether to increase the house appropriation of \$725,000,000 for the WPA to \$875,000,000 as urged by President Roosevelt.

Comparing the claims of both sides made in the struggle that went on behind the scenes as debate on the senate floor continued, it appeared that there were about seven doubtful votes. And even on these seven each side was claiming all or a majority of them.

"I am hopeful that we will be able to restore the amount recommended by the president," Majority Leader Barkley said.

But Senator Byrnes (D) of South Carolina, a leader of the \$725,000,000 advocates, said:

"We will win by a majority of about five votes. It is very close."

Drive For Speedy Vote
Foes of the presidential appeal for an addition of \$150,000,000 to the house bill were driving for a speedy vote, apparently satisfied they had enough votes lined up to win this crucial test between the economy bloc and New Dealers. Woman Today

DISAPPEARED DURING NIGHT

Sheriff M. M. Ingham, all available deputies from his office and seven members of the Pennsylvania Motor police today were scouring highways, woods and fields in the hope of finding Miss Anna Warner, 55, who left the Lawrence County home, Ellwood City highway, some time after 8:45 p. m. Tuesday. Authorities hope that the woman secured lodging some place last night, because, judging from the way she was attired, freezing temperature and snow, they fear exposure to the elements would have been disastrous.

According to Mrs. Perry Snyder, care-taker of the woman's department of the institution, Miss Warner, who was entered from Washington township, last July, conversed with another inmate about 8:45 p. m. Tuesday. This was the last seen of her.

At 7:15 a. m. today Mrs. Snyder discovered Miss Warner was missing from her room. She discovered that Miss Warner had not donned her coat. She took a small satchel with her, Mrs. Snyder discovered.

WASHINGTON, Jan. 25.—President Roosevelt has definitely decided to continue "hands off" policy on the Spanish civil war and not to lift the arms embargo by executive proclamation, International News Service learned today.

Before the end of the present session of congress, however, a general revision of the present neutrality act will be sought, as forecast in the chief executive's "state of the union" message with which he opened the congress.

Loyalist Spain "Lost"

Swiftly moving events of the past 72 hours in Catalonia, which have been Generalissimo Francisco Franco's insurgent legions sweep unchecked into Barcelona's suburbs, have convinced Washington that Loyalist Spain is another "lost cause."

The civil war may linger on for weeks, or a capitulation of the Spanish capital may bring speedy end to the bloody thirty-months conflict, but little doubt remained in informed quarters in Washington today that the victory inevitably will be to the Insurgents.

To lift the Spanish arms embargo at this time, it is held—an action which the world would inter-

Contradictory Statements Revealed In Investigation Of Crash Of Bermuda Plane

(International News Service)

NEW YORK, Jan. 25.—Vague and at times contradictory statements today confronted investigators for the British government attempting to fix the cause for the crash of the Bermuda-bound airliner Cavalier Sajurday in the Atlantic with a loss of three lives.

Although the last "S. O. S." call from the falling ship indicated its four giant motors suddenly stalled because of ice conditions, the skipper, Capt. M. R. Alderson, insisted that was not the cause.

"The ice hazard was negligible," said Capt. Alderson, one of the 10 survivors rescued by the Esso Baytown, an oil tanker. "I have flown through much worse weather without mishap. Why all four motors failed, forcing the ship into mountainous seas, is a mystery to me."

Formal Inquiry Later

Depositions taken from the 10 hardy survivors, now scattered to their homes and hotels, will be introduced at a formal inquiry to be held later in Canada or Bermuda. The present preliminary inquiry was being conducted by Capt. George C. Pirie, air attaché at the British embassy in Washington.

Franco Pledges No Revenge Acts

LONDON, Jan. 25.—A solemn pledge by Generalissimo Francisco Franco to abstain from acts of revenge against his enemies in Barcelona and other territories captured by his insurgent troops in Spain was officially announced by the British government today.

Such acts, the insurgent generalissimo officially informed Great Britain's representative to Burgos, would be "completely out of keeping with the character and intentions of Franco's government."

The assurance served to alleviate fears of reprisals and retaliatory measures against Barcelona's two million inhabitants, who died in today for a last-ditch stand while Franco's troops massed only a mile from the center of the Catalan capital for their final assault.

Secretary Perkins Seeks Authority

Wants N. L. R. B. In Department

Would Throw Fight Over Wagner Labor Act Wide Open In Congress

TO SEEK HEARING ON IMPEACHMENT

By WILLIAM S. NEAL

Copyright, 1939.

WASHINGTON, Jan. 25.—Undaunted by attempts to bring her to an impeachment trial before the Senate, Secretary of Labor Frances Perkins today reached out for more authority. She seeks to have the national labor relations board placed in the Labor Department.

Miss Perkins made the proposal, which would throw the fight over the Wagner labor act wide open if considered by Congress, to members of the Senate and House labor committees.

Congress Rejected Proposal

Although Congress rejected the proposal when it created the labor board, Miss Perkins urged that all activities of the government connected with labor be placed in the Labor Department. This proposal follows the government reorganization principles of President Roosevelt.

In urging this change, however, members of the labor committees said, Miss Perkins avoided any recommendation for vital changes in the principles of the Wagner act.

Fighting with indignation over the impeachment move of Rep. J. Parnell Thomas (R) of New Jersey, Miss Perkins planned to seek a hearing before the House judiciary committee to deny charges that she failed to carry out the law in deportation proceedings against Harry Bridges, west coast CIO leader. She also denied other charges of failing to do her duty in immigration and deportation matters.

To Consider Impeachment

With the judiciary committee planning to consider the impeachment resolution this week and chart a course, Commissioner of Immigration James L. Houghteling and Labor Department Solicitor General D. Reilly—both impeached by Thomas—also sought to defend themselves.

Thomas, a former manager of a New York bond house, expressed de-

light over the possibility of pressing his case before the judiciary committee.

"I think the judiciary committee will go into the whole matter," he said. "If it does, it will find more fire than smoke. I hope it goes into the Bridges case the way the Dies committee did, and begins where the Dies committee left off."

"I charge that Miss Perkins used the Strecker case appeal to the Supreme court to delay a showdown in the Bridges case. In other words, she sold the United States to save a west coast Communist."

The Dies House un-American activities committee investigation was injected into the entire picture. Thomas was a member of the committee. The committee, in its report, condemned Miss Perkins action in suspending deportation proceedings against Bridges pending court action in a similar deportation case against John G. Strecker of Arkansas.

Rep. Dickstein (D) New York, intimated that the Dies committee was "behind" the Perkins impeachment move—a statement denied by Chairman Dies (D) of Texas, of the committee.

"Miss Perkins merely followed the law," said Dickstein. "She had nothing to do with Bridges' admission to this country. He is here on a temporary visa—he is not here permanently."

Lewis, vice-presidents Philip Murray and Sidney Hillman announced CIO support of the faction Martin suspended from the U. A. W. executive board, whose members promptly retaliated by "suspending" Martin himself, and four board members backing his action.

Recognizes Thomas

As of today, the CIO recognizes R. J. Thomas of Detroit, as president of the auto workers, and as board members the fourteen others suspended by Martin and four members who escaped suspension by either the Martin or the Thomas faction.

With a formal statement of CIO support in their brief cases, nine of the board members recognized by Murray and Hillman were prepared to fight today, which must ensue in the U. A. W. ranks and the courts before the U. A. W. tangle can be straightened out. They are confident Martin will carry his fight into the courts, and already funds of many of the union locals are tied up by cross orders obtained by Martin and Thomas.

PRESIDENT WILL NOT LIFT EMBARGO IN SPANISH WAR

(Continued From Page One)

pret as an American move to supply arms to the Loyalists—would be an empty gesture so far as the Loyalists were concerned, and a dangerous one for the United States. In the Washington view it might entangle this country in the troubled European waters which it sought to avoid invoking the neutrality act in the beginning.

To Keep U. S. Out

To revoke the neutrality act so long as the civil war continues in Spain, it is held, would be an act of un-neutrality, and America's basic foreign policy still remains to keep out of Europe's quarrels.

This was pointed out by President Roosevelt yesterday at his press conference. A reporter, pressing him on the point of the Spanish embargo, asked if it was implied that this country's foreign policy is flexible.

The chief executive replied in the negative and said the correspondent was being didactic. Continuing, he said that a specific policy can not be outlined for 20 years ahead but that it does not mean that basic policies are flexible, and therefore non-existent. This nation's fundamental foreign policy, the president asserted, began in 1776 and has been forming ever since. It was then that George Washington enunciated the policy of "no foreign entanglements."

The president referred questions on the legal status of his authority to lift the neutrality act to the state department. Some authorities, among them former Republican Secretary of State Henry L. Stimson, have asserted recently that the president could lift the embargo by executive proclamation. Mr. Roosevelt said this legal phase has been under study for the past month but that he did not know the exact status.

At the state department it was pointed out that in addition to the revised neutrality act of May, 1936, a special joint resolution of Congress on January 8, 1936, imposed an arms embargo against Spain. This the state department holds, could be lifted only by act of Congress.

CONTRADICTORY STATEMENTS ON PLANE CRASH

(Continued From Page One)

preservers available for the passengers was a debated question. Captain Alderson said the survivors clung to nine lifebelts in the seas. Mrs. Edna Watson, one of the survivors, said there were six. A sailor on the rescue ship fixed the number at four.

Dispute On Life Preservers

There was also some dispute as to when the life preservers were handed out and whether the passengers were given sufficient warning to don their lifebelts.

Another unanswered question was that of why the ship was not landed while one or two of the motors were yet running instead of being set down on heavy seas in a "dead stick" landing hazardous under most propitious circumstances.

Conflicting answers were given by survivors to the question of when the order was given for the fastening of safety belts and why it was ignored in some cases. J. Gordon Noakes one of the three who died, was believed to have been standing in the plane when it struck the water. Suffering a badly gashed head, he was unconscious and sank to his death quickly.

Officially, the United States will not participate in the investigation, although James Payton of the Civil Aeronautics Authority, will be present as an observer.

Deaths of the Day

Matthew H. Richards.

Matthew H. Richards, aged 67 years, retired tin mill employee, passed on at 2:30 a. m. today in his home, 1002 Maryland avenue. He had been in poor health for a long time.

Born in Swansea, South Wales, on March 15, 1871, he was the son of Matthew and Elizabeth Mort Richards. Like so many other young men of Swansea, he embarked for America when tin mill workers were needed, landing in this country on March 6, 1893. He passed four years in Baltimore, Md., then came to New Castle 42 years ago to work in the Greer mill, and later the Shenango. He was pensioned seven years ago.

Mr. Richards was a member of the New Castle lodge No. 642, F. & A. M., and the Valley of New Castle Consistory, A. A. S. R.

Mr. Richards was an active member of the Central Christian church on the South Side and taught a class for years. He married Anna Winkelman 45 years ago last July and is survived by his wife, three sons, Thomas, Herman and Howard; one daughter, Elizabeth, all of this city, and two grandchildren, Ruth Richards of New Castle and Trevor Richards of Cleveland.

Friends may call at the Maryland avenue address. Services will be conducted there at 2 o'clock Saturday afternoon with Rev. Thomas B. Shearer of the Central Christian church in charge, assisted by Rev. Rees T. Williams of the First Congregational church. Interment will be in Graceland cemetery.

Mrs. W. H. Helle.

Mrs. Jennie W. Helle, aged 66 years, wife of W. H. Helle, died this morning at 3:15 at the residence of her daughter, Mrs. Paul Dean, on Becker street, after a lingering illness.

Mrs. Helle was born in Indiana, daughter of Thomas and Anna Taylor Woodard. Her father and mother died when she was four years old and she was reared by the late Judge Taylor of Enon Valley.

She leaves her husband, the following children: Mrs. Paul Dean of New Castle; Thomas and Carl of West Pittsburg; and Charles at home, nine grandchildren and one sister, Mrs. Louis Hawthorne, New Castle R. D. 7.

Mrs. Helle was a member of the Savannah M. E. church; she was active in both church and Sunday school work.

The body was removed to the Ritchie funeral home and will be returned to the Becker street home. Funeral services will be conducted at Savannah church Saturday at 2:30 p. m. Interment will be in Savannah cemetery.

Henry Herman Hempel.

Henry Herman Hempel, aged 78 years, died at his home, 1105 South Jefferson street, at 8 o'clock Tuesday night, the result of a heart ailment for which he had been treated a year and a half.

Mr. Hempel was born in Germany on July 24, 1860, and had lived in New Castle ever since. He married Katherine Maser, who survives, 46 years ago. Besides his wife he leaves the following children: Henry and Albert at home, Mrs. James A. Brest of New Castle and Mrs. David A. Brest of Walpole, and four grandchildren, Howard and Kathryn Brest, James and Donald Brest. He was a member of St. Paul's Lutheran church.

Services will be conducted from the home at 2 o'clock Friday afternoon, with Rev. A. M. Stump, St. Paul's pastor, in charge. Interment will be in Oak Park cemetery.

Morse Services.

Funeral services for the late William Parker Morse of Youngstown, O., formerly of this city, took place at 2 o'clock Tuesday afternoon in the Jos. S. Rice Co. chapel.

Rev. Chester T. R. Yeates, pastor of the Third U. P. church, was the minister in charge.

The pallbearers were William Bryan, Ellis Howard, Joseph Maxwell, Dr. William R. Jones, Jack Morse and Robert J. Morse.

Interment was in Greenwood cemetery.

Funeral of Mrs. Lytle.

Services in memory of the late Mrs. Thomas Lytle of Neshannock avenue took place in the presence of family, relatives and friends Tuesday afternoon in the George Morrow funeral home.

Rev. Stewart Wagner was in charge. Mrs. Clara Young and Mrs. Lucille Moore sang two hymns, "He's the One" and "What a Friend We Have in Jesus".

Pallbearers were Lester Woods, I. A. Lytle, Walter Smith, Thomas Sweet, T. H. Watson and Frank Shelton. Interment was in the Harmony Baptist cemetery.

Joseph Obodzinski Funeral.

Funeral services for Joseph Obodzinski, of Yoho Way, took place on Tuesday morning at 9:30 o'clock from his late residence, with high requiem mass sung late in SS. Philip and James church.

Rev. V. V. Stancielewski, pastor of the church, officiated at the mass and conducted the committal services at the side of the grave. Many beautiful floral tributes had been sent to the home in memory of the deceased and the funeral was attended by a large number of friends and relatives.

Pallbearers were George Krupa, Frank Cwynar, Andrew Wrona, Casimir Gosztyla, Stanley Gierad and Peter Zbieglen. Interment was made in Madonna cemetery.

McDaniel Funeral Time.

Funeral services for the late H. P. McDaniel, well known former New Castle resident and liverman, who died Tuesday in the home of his son, Edward McDaniel, Oil City, are to be conducted from the Offutt funeral home in New Castle Friday afternoon at 3 o'clock. Rev.

Philip C. Pearson, rector of Trinity Episcopal church, will be in charge. Interment will be in Oak Park cemetery.

Friends will be received at the Offutt funeral home Thursday afternoon and evening from 3 to 5 and 7 to 9 o'clock.

H. P. McDaniel was born in New Castle and with the exception of the past four years he spent his entire lifetime here. Had he lived until next May 20 he would have been 85 years old. His wife, Amelia Sager McDaniel, died 19 years ago, and he was also preceded in death by a son, Joseph. His only close survivors are his son, Edward, and grandson, Edward, Jr.

Elias Hintsa Funeral.

A great many friends were present Tuesday afternoon when the funeral of Elias Hintsa, old resident of Bessemer, was conducted at 2:30 o'clock. The Bessemer Presbyterian church was used, because of its larger capacity, and the services were in charge of Rev. Einar Lehto, pastor of the Finnish Lutheran church of New Castle.

Two duets, "Lead Kindly Light" and a Finnish number, "Taaltia Pucklen Ylkaisen Maan", favorites of the deceased, were sung beautifully by Esther Haltunen and Sylvia Koski, with Alice Koski at the organ.

Pallbearers were John Puromaki, William Puskala, Victor Liqst, Edwin Pelkanen, John Hanlanen and John Tenhula. Interment was in the Bessemer Finnish cemetery.

Charles Roush Funeral.

At 2 o'clock Tuesday afternoon, services in memory of Charles T. Roush of Wampum R. D. 1 were conducted from the David M. Ritchie funeral home, with Rev. Samuel Baker of the Clifton Flats Mission in charge.

Mrs. J. A. Baker and Mrs. S. C. Baker sang two hymns very beautifully, accompanied at the piano by Mrs. Edward Garver. The hymns were "Face to Face" and "The Last Mile of the Way."

Friends served as pallbearers. Interment was in Savannah cemetery.

FORESEE CLOSE VOTE ON W. P. A. FUND IN SENATE

was said to show, however, the president would win by a majority of two votes.

Thus the conflicting claims of strength, with the \$725,000,000 advocates striving for votes on the ground the vote will tell the country whether there is to be more general retrenchment in federal expenditures.

At the same time administration supporters rested their case on a plea that if the amount asked by the president is not granted thousands of needy persons will have to be dropped from the WPA rolls.

Reductions Delayed

The senate bill stipulates there must be no reduction in the relief roll prior to April 1, exceeding 150,000 of the present 3,000,000 enrollees. By June 30, however, the number of persons on relief would have to be reduced to about 2,000,000 in order to keep within the appropriation.

It also provides that if the \$725,000,000 proves insufficient before June 30, President Roosevelt may ask for more money but must state the reasons for such a request.

Barkley and others in the administration camp argued the president now knows how much will be needed to carry on WPA until June 30, and based his estimate for \$875,000,000 on that knowledge.

Twenty of the 23 Republicans were expected to vote for the \$725,000,000 fund. Senators Borah (R) of Idaho, Frazier (R) of North Dakota and Davis (R) of Pennsylvania were counted in the \$875,000,000 camp.

The 69 Democrats in the senate were split wide open on the issue, with Senators Harrison of Mississippi, Adams of Colorado and Glass of Virginia joining Byrnes in a board of opposition strategy. Three of the independent party members were figured to vote to "stand by the president".

employee, digging through the frozen ground, on the West Side, to replace a shut off, badly bent over by some vehicle. When told it was a bad day for such a job, the man replied, "Well! it's a day's work for me."

Thomas and Walter Whiteford, of Smithfield street, have returned from Patton, where they were attending the funeral of their brother Hugh. The cemetery being on a hill, there was so much snow on the roads and cemetery, Sunday, the funeral had to return to the town, and the burial took place next day.

They Used to Call Him 'Old Sourpuss'

He never wanted to go to the movies; never wanted to play bridge; never wanted to do anything. He was a wet blanket at the parties he did attend because he always fell asleep at them. Dr. Rosenthal's glasses changed all this. Now, because his eyes aren't tired, he's the life of the party!

COUGHS DUE TO COLDS

To quickly relieve distress—rub soothing, warming Musterole on your chest, throat and back.

Musterole is NOT "just a salve." It's a "counter-irritant" containing good old-fashioned remedies for distress of colds—oil of mustard, menthol, camphor and other helpful ingredients.

That's why it gets such fine results—better than the old-fashioned mustard plaster. Musterole penetrates the surface skin, stimulates, warms and soothes and quickly helps to relieve local congestion and pain. Used by millions for 30 years. Recommended by many doctors and nurses. In 3 strengths: Regular, Children's (Mild) and Extra Strong, 40%.

THRIFT LUNCHEON AT TEMPLE FINE SUCCESS

The fifth annual Thrift Luncheon of the New Castle Section of Hadassah, held in Temple Israel, was a success from the point of number of participants, type of luncheon and program. Mrs. S. Skole served in the role of toastmistress.

Preceding the serving, Rabbi Mordecai Simmes, of Tifereth Israel synagogue gave the invocation. Mrs. J. Cobb, president, welcomed members and guests and also the toastmistress, who with pleasing personality and gracious manner, presented the program.

Mrs. Maurice Schoenberger composed two charming songs for the occasion, both of which were sung by the audience, and led by Mrs. Jack Conn. Mrs. L. Reinhart accompanied at the piano. One song was a parody on the purpose of the School Luncheon Fund. The other expressed Hadassah's noble aim.

The main feature was an inspiring and informative talk by the guest speaker, Mrs. Maurice Davis, president of the Pittsburgh chapter. Her topic was "The Role of Hadassah in the Refugee Situation," with emphasis on the help rendered to the children. During the past year twelve hundred children have been taken into Palestine from Germany.

Mrs. Jack Leiby, chairlady of the Thrift Luncheon, was called upon for a few remarks, expressed thanks for the splendid cooperation of the members.

Announcement was made that an educational open forum to which the community is invited, will be held at the Cosmo club January 26. The topic is "Jewish Survival in the World Today." There will be a fund raising rally January 30 at the Leslie Hotel.

Climaxing a successful session, Rabbi Norman H. Diamond gave a fitting benediction.

A REAL CLEAVAGE

It is impossible just now to estimate how much effect the deep cleavage in the ranks of the Democratic Party will have on the results of the 1940 election. It is certain however that the effect in November, 1938, was considerable, and it is just as sure that up to this time the wounds have not healed. Here are some words quoted from the recent address of a United States Senator of national reputation:

"We will not be hearing so much in this Congress about the virtue of subservience in blindly following a leader, no matter how popular that leader may be. With an independent Congress now taking its place beside an independent judiciary, there is hope for American democracy."

"Certainly there can be no liberal investment of private savings in enterprise when the prospective investor has no assurance that tomorrow he will not find himself in direct competition with his own government. The prudent investor is willing to take his chance in a field where his competitors fight with weapons similar to his own. But he knows that he does not compete on equal terms with his government, for then he is meeting one who makes the rules which all but itself must follow."

These paragraphs are not from a critical speech delivered by some Republican orator. They are taken from the newspaper account of an address made to the Washington, D. C., Board of Trade, not long ago by Senator Edward R. Burke, Democrat, of Nebraska. They do indeed represent a critical view of the works of the New Deal, but they are even more significant in that they represent the economic views of a number of important Democrats inside Congress and out.

Here is one reason why there is so much doubt and confusion now in predicting what may happen in the national election which is less than two years off.

DIFFERING TECHNIQUES

The Mexicans are, at certain moments, a quaint people. Imagine this: Two members of the Cabinet are mentioned as possible Presidential candidates and thereupon resign! "We have no desire to use our high offices as a means of calling public attention to us," their statement said.

With them resigned the commander of the Mexico City military zone, who was also unfortunate enough to be "mentioned." The term of President Cardenas expires in December, 1940, and thus far there is no announced candidate to succeed him.

In Mexico, of course, it might not be healthful for Presidential aspirants to get too far out in front, lest the incumbent become suspicious and proceed to what might be described as direct action. Nevertheless, whatever the reason, the Mexican practice stands in sharp contrast to our own. For example, did Mr. Harry L. Hopkins resign as WPA head when he was mentioned as a possible successor to President Roosevelt?

He did not. Far from that, the President promoted him to the Cabinet to promote his chances. Has Vice President Garner resigned because he's been boomed for the 1940 nomination? Not "Cactus Jack," who's been in Congress since 1903. Has Mr. James A. Farley, another aspirant, resigned as Postmaster General, or as Chairman of the Democratic National Committee, or as Chairman of the New York State Democratic Committee? No. "Genial Jim" has resigned nothing.

The list might be continued. It just serves to remind us that more than the Rio Grande separates two good neighbors.

TRAGIC ENDING OF "FOXY GRANDPA"

Let us suppose that it's a Winter morning in 1901—a Sunday morning, to be precise. All week the gentleman at the head of the table in his wing collar has read The New York Herald at breakfast. He has observed, across his coffee cup, that the Boers are advancing. Benjamin Harrison has made a speech at Indianapolis suggesting that all ex-presidents of the United States should be decapitated. That's a good one.

Lord Roberts has returned to England from South Africa and Queen Victoria has knighted Hiram Maxim, inventor of an automatic rifle. Congress hopes to preserve the gold standard despite those Democrats. Mrs. Carrie Nation has smashed a lot of saloons in Kansas, and Mrs. Leslie Carter is coming back in "Zaza." Herreshoff is designing a new cup defender, larger than the Columbia. The British troops in Peking have given an amusing show, entitled "Aladdin or the Looted Lamp." That's all this morning children; time for school!

But now it's Sunday morning—oatmeal with prunes, fish cakes, corn muffins, cream and a sip of weak coffee. Sunday school's not until 10. But where's The New York Herald? Most of it's on the floor, where it has been tossed in a mad scramble to find the Colored Supplement. The children are flat on their stomachs on the dining room carpet, pink and green with rose and leaf. On the front page of The Supplement are the adventures of Foxy Grandpa.

What's Foxy doing this morning? He's dressed in his usual bright blue suit, but this time he's out in the snow, with a red muffler tied around his neck. His white hair and sideburns are just visible under a bright red cap. "The boys throw snowballs at him and duck behind a fence. But Foxy sneaks up behind them and tosses them both into a snowdrift. Who cares if Queen Victoria is ill at Osborne, or whether General MacArthur is going to deport Aguinaldo, if he can catch him? Foxy Grandpa has scored again, and next Sunday there'll be another breathless moment to see what he's thought up during the week. What a fine Grandpa he is, and how he makes us all laugh! Well, off to Sunday school.

Foxy Grandpa did not die. He faded from the pages of The New York Herald and other newspapers as public taste changed. But his creator is dead—Carl E. Schultz, "Bunny." Dead in a Manhattan rooming-house, dead on WPA, dead at 72, dead of a heart attack, dead alone. His last act was to purchase an ice cream cone for the superintendent's daughter. And on the wall of his \$4-a-week room there hung a picture of Foxy Grandpa and right near him an original drawing of two new friends—Mickey and Minnie Mouse.

Never waste sympathy on a martyr. His idea of a good time is to feel sorry for himself.

Convincing people isn't difficult. The hard part is to keep them ignorant till their convictions jell.

Some women have permanent homes and some have husbands who can't resist the offer of a profit.

The Parent Problem

By Garry C. Myers, Ph. D.

VIEWING THE FIRST BORN

Few parents have seen a brand new baby up to the time when they behold their own first-born. This first sight is likely to prove a shock for the baby, then is a rather ridiculous little creature. I shall never forget my experience on first sight of our first child. I was sure he was an idiot—such a low forehead—but in twenty years he has dispelled all such anxieties.

According to adult standards of human beauty the new baby is all out of proportion—arms and legs too short, body large, abdomen bulging, head immense in relation to the rest of him, and probably all out of "proper shape." His brain weighs about one-eighth his total weight. Suppose yours did now. It does not, but weighs about one-sixteenth of your entire weight. Usually baby's complexion is ruddy and blotchy at that. His crumpled face is in a maze of wrinkles changing from one grimace to another—and not a semblance of a smile. Yet nothing so fascinating as to watch this baby develop day by day!

Also the structure of his tiny body is different from ours. Chiefly cartilage or gristle and his bones are soft and pliable instead of being stiff and hard.

Heart Beats Faster
The baby's blood is of different composition from adults, his heart beats much faster, he breathes more rapidly and his temperature is higher and changes more readily. A larger proportion of the baby's body is composed of water than the body of an adult. We see then that before he can grow up, he must not only grow much in size, but he must also undergo a series of changes in the structure and chemical composition of his body.

His first big achievement is a lusty cry. He can cough and wheeze, snore and sneeze, and he has a good grip with his hand. He may be able to support his weight, like a chimpanzee on a trapeze.

ON THE RAPID FLIGHT OF TIME

The days and weeks and months fly by.

Here January almost done
And February drawing nigh!
Of months that is the shortest one.

March will come boldly blustering in
The way for April to prepare.
If we have work we'd best begin
Or May will take us unaware.

On verdant paths Miss June will tread
With many a happy, blushing bride.
Soon we shall find the summer fled
And autumn at the countryside.

Last Christmas was a month ago!
Have thirty days flown by since then?
I'll warrant you next thing we know
It will be Christmas time again.

HINTS AND DINTS

Sun sets tonight 5:09; sun rises tomorrow 7:16.

We read of the wife of a preacher who goes into the pulpit on Sundays and preaches when he is unable to do his work. It isn't often a wife can do her husband's work—and good work!

A great many people have fallen and been hurt so far this winter. We tell ourselves on New Year's Day at about nine-thirty in the morning and nearly busted ourselves. We are glad it was early in the morning that day, because you know people will talk!

PAID DEATH NOTICES

Effective Jan. 1, the Council Bluffs (Ia.) Nonpareil began accepting death notices as paid advertising in the want ad section. The obituary column is continued in the new section but does not mention time of funeral or the mortician in charge of arrangements.

When a local woman was told that her husband had fallen on a sidewalk and been hurt and taken to the hospital she exclaimed: "Thank God, he has just taken a bath and had clean underwear on."

A gal we know when asked if she had "hit" her boss for a raise, replied: "No, all I had to do was to kiss him."

TODAY'S STORYETTE

The teacher had given his class a lesson in courtesy. The following day, while examining the home lessons, his eyes lit up with pleasure when he found an all-correct paper.

"Jones," he called to the successful pupil, "I am very pleased with you. All your answers are correct. But why have you put quotation marks to all of them?"

"Out of courtesy to father, sir," came the reply.

If you are keen about your new beau and wish him to ask you for "dates," do not, when he calls for you, greet him with your hat and coat on, unless he had previously asked you to go out. Should he get the idea that every date with you means spending money (a sufficient reason for which he may not have), he will hesitate to pursue you. Let him make the suggestion of "going places." And don't expect him to take you somewhere every time he makes a date. He'll be much more interested in you if he can spend an occasional evening at your home.

Reader's Question Answered
Dear Miss Markel—Please give me some hints on giving a housewarming. I have just moved into my new home.

Answer—A housewarming is just like any other party, except that the guests should be taken through the house for inspection and bring gifts for the new home. So you had better have your house ready for close scrutiny—even your closets.

If you wish to have yours in the afternoon, give a tea taking place from 3 until 5. Issue your invitations by telephone. Save your guests from the occasion, the date and the time) or by notes. Should you prefer it, your housewarming may take place at an evening party. Dancing, bridge or any other game you prefer may be planned to entertain your guests after they have inspected your new home from attic to cellar.

Miss Markel will promptly mail personal answers to questions from any reader inclosing a self-addressed three-cent stamped envelope.

What's What At A Glance

Says Air Bombing Doesn't Win
Most Bombed American Speaks
Ambassador To China Is Target

By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, D. C., Jan. 25.—Nelson T. Johnson does not call himself an expert aviator at all. He is an expert, however, as an aviator's target. As United States ambassador in China he probably has had more bombs spilled in his vicinity from on high than any other living American.

In fact, the chances are that he has been more copiously bombed than the Chinese themselves.

Here's the idea:

When Ambassador Johnson went to the Orient the capital he was assigned to was Nanking. War presently having broken out, Japanese airmen bombed the Nanking area out of house and home.

Johnson took his medicine with the rest, but finally things got so bad that the Chinese government transferred its headquarters to Hankow. Our ambassador went along. Thereupon the Japs let up on Nanking, giving folk there a rest. Johnson did not get any, though, for the Mikado's flyers immediately began bombing Hankow. Ultimately Hankow likewise became too hot for Generalissimo Chiang Kai-Shek to hold, so his administration moved on to Chungking, still farther inland. This meant a special peace for the Hankow populace, but none for Nelson Johnson, because he had moved his embassy along, to keep up with the government, and as such he arrived at Chungking. Nippon's bird-men were dropping pineapples there, too.

In short, for a considerable part of his time during a plurality of years, Nelson Johnson has been under a rain of explosives from the clouds.

Thus, as a spokesman for the aviators' bullseyes, what he says, in the course of his current visit in Washington (he is here to inform the government concerning Far Eastern conditions) is said with considerable authority.

His verdict is:
"Aerial bombing doesn't win a war."

A Matter of Digestion

This remark by Ambassador Johnson has been quoted freely enough, but I question that it has been fully digested.

Aerial warfare is rather a new proposition. Aviators claim so much for it that one suspects them of over-enthusiasm. Groundlings, who pooh-pooh it, are open to the suspicion that they are back numbers.

We ordinary folk are uncertain. But "Nels" Johnson is quite impartial. He's seen aviation in operation upon an enormous scale, and he's seen groundlings' reaction to it.

His judgment is that, militarily speaking, it is about what I should have imagined, speaking as no judge whatever, but just as an innocent bystander.

Damage?—Oh, a-Plenty!

It is conceded that an air-fleet, swishing over a hostile city, can raise havoc.

But it cannot do anything except superficial damage.

In 1916 I saw a deal of it done by a German Zeppelin in London. The Zep did not effect a landing, however—and it does not do a Zeppelin much good to land on a city, don't you think?

It is irritating to a country to be raided, but it does not cripple its military strength particularly.

Its purpose is to crack an opposing nation's civilian morale, correspondingly weakening it militarily. But does it do it? It did not do it to the Allies in the last war. Ambassador Johnson says it has not done it in China's case.

London and Paris

Aviation has improved since the world conflict.

Maybe Berlin and Rome could flatten out London and Paris—but that would not imply that Germany and Rome had licked England and France.

As for New York?

A chance shot might dispose of the Empire State building or Rockefeller Center. But could that kind of a raider get away with it?

The World AND THE Mud Puddles

HE VIOLATED CUSTOM.

The fine art of what might be called infallible failure, the technique of inevitable non-success, has been developed to full flower by that curious phenomenon, the British Heavyweight Fighter.

All things in the universe are limited except man's appetite for flattery and his ability to kid himself.

"I'm awfully sorry, but we don't accept checks, although I know yours is perfectly good."

No matter what the doctor tells you, a bouncing baby boy won't even bounce once.

An Incredible Mess

Washington, Jan. 25.

IT is a personal tribute to Mr. Henry Wallace that the awful state of sticky futility to which the New Deal has caused no rejoicing at his expense by those who from the start have regarded the New Deal's planned economy as phony.

ON the contrary, the plight in which Mr. Wallace now finds himself has aroused considerable sympathy for him. It seems tough luck for an earnest and decent man who has tried hard to make work schemes in which his intelligence always prevented him from completely believing. However, this should not disguise the fact that the whole grandiose business of making agricultural use of billions has been spent and with which some of Mr. Roosevelt's brightest promises are bound up, has reached a stage of almost total collapse.

THE Roosevelt farm policy today is a vacuum. Today confusion reigns in the department, the secretary and his once-confident aides are disheartened and no one in the New Deal has a coherent idea of what to do next. They do not know how to keep going and they can't stop. This is neither an exaggeration nor a criticism. It is a simple statement of fact in which the more clear-headed administration leaders themselves privately concur. In years to come when the record can be reviewed without heat or prejudice the Roosevelt agricultural experiments will stand out as among the greatest governmental failures of any period.

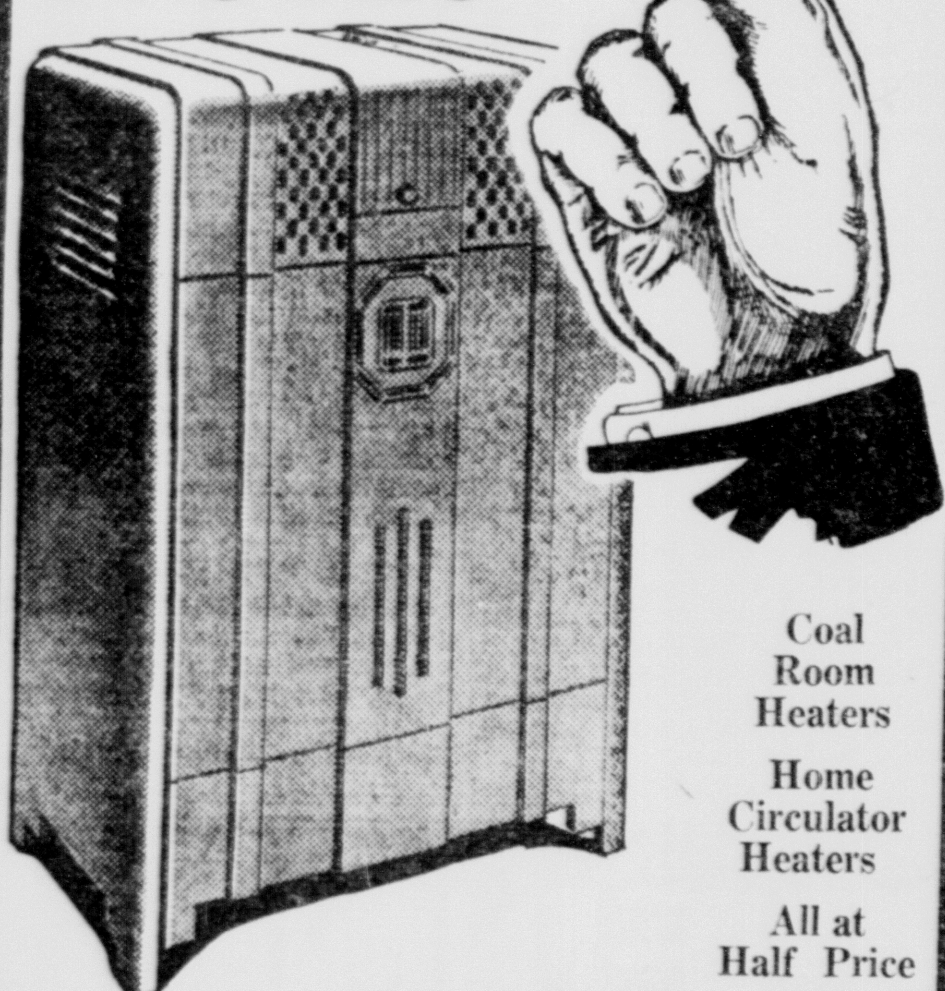

IT IS not that two immensely hillyhooped plans have flopped in six years but that here in the last stage all semblance of leadership has been lost. Last year when the present law began to drop Mr. Wallace and his experts evolved several constructive suggestions. The chief of these was the "two-price" system by which food products were to be sold at one price to the well-to-do and a lower price to the poor. This surplusage of being sold at home instead of being sold abroad. The idea never clicked. Before Congress convened it was clearly unacceptable. Today it isn't even debated. It has gone "out the window" along with Mr. Wallace's hope of reviving the processing taxes, knocked out by the Supreme Court in first AAA decision.

JUST a few days ago Secretary of the Treasury Morgenthau, who in such matters voices the views of the President, specifically opposed processing taxes as a means of financing farm benefits. This leaves Mr. Wallace out on a limb with nothing to cling to at a time when, right after the election, when disarrayed, along with the existing act, was being loudly voiced by the farmers.

Mr. Wallace challenged its opponents to present an alternative. One such has now been offered in Congress, sponsored by Representatives Lemke and Senator Frazier, of North Dakota, and backed by some twenty-six Senators—and by some members, including New Dealers like Senator La Follette and anti-New Dealers like Senator Burke.

IT is known as the "cost-of-production" bill, and in the matter of complicated regimentation as well as powers conferred on the Secretary of Agriculture exceeds anything heretofore attempted. It would be more costly and more unworkable than any previous experiment. At least, that is the opinion of experts who, starting out believing in the principle of planned production and price fixing, have been, at any rate, partially educated by experience. If this bill should pass—and it may—it would supplant the present AAA with its soil conservation, voluntary production controls and compulsory features to make effective which Mr. Wallace has labored so

GNCA Plan Shows City Represented

Carefully thought out to assure the representation of all citizens of the New Castle community, the Greater New Castle Association's organization plan, outlined in an advertisement today, is distinctly unique as a means of securing the co-operative progress of the district.

While most associations seeking to promote civic progress limit their activity to and enlist their support from a relatively small section of the city, the new association proposes to select its advisory board and board of directors from the entire organized life of New Castle.

All factions will have a voice in its policies.

Its purpose has been wisely limited to concern only such things as are undoubtedly needed by the city as a whole. Those internal problems which are the primary responsibility of particular groups are not included in the prospectus of the association.

South Side Civic Club Elects New Officers For Year

The South Side Civic Club met last night at the Slovak Club and elected annual officers for the year of 1939, with Steve Gonda being named as president.

Other officers named were: Vice president, Edward Redman; financial secretary, Angelo Mooney; recording secretary, Andrew Yocinski; treasurer, Louis Dudek; board of trustees, Walter Gerlach, Paul Kulha, J. J. Mahalic, John Emery, John Smith.

The club discussed plans for holding a dance on the night of Monday, February 13 at the Arena.

outside the building, shoe-prints were found near the smoke-stack which is in the rear of the home. However, howling winds of last night had swept snow over the tracks almost obliterating them.

An alarm was sent Sheriff Ingham who immediately telephoned State Motor police, Sheriff Ingham and Deputies Badger, Dean and Stark began searching for the woman while seven members of the State Motor police also sought trace of her.

According to reports Miss Warner disappeared from a Washington township home last July. She was later found in the woods near East Brook. Whether or not she tried to return to her former place of employment in that township or was overcome by cold was not known early this afternoon.

Fifty-nine like a good cry; Fifty-three like a happy ending; Twenty-five engage in a little petting under cover of the darkness of their favorite movie-house.

REBELS MOVE ON CITY FROM THREE SIDES STEADILY

ports of Barcelona and Valencia and harrasing the Catalanian and Es tramaduran fronts.

No Spirited Resistance
The lack of spirited resistance at Solsona and elsewhere in the Barcelona area during the insurgent "mile-a-minute" drive of the last few days led Franco to hope the city's defenses would crumble entirely, enabling its occupation without sanguinary fighting.

The generalissimo let it be known that he is anxious to avoid further destruction and loss of civil life if possible, but expressed fears of widespread sabotage by Catalanian anarchists before they surrender their capital.

Zero Hour Near
Barcelona's zero hour will come shortly, perhaps today or tomorrow when the full three armies of Franco's juggernaut reach positions enabling simultaneous onslaughts upon the city.

The troops of General Rafael Garcia-Vallejo's Italo-Spanish Mactrazos corps will strike from the northeast, Gen. Jose Solchagagala's hard-bitten Navarrese will attack from the northwest and General Juan Yague-Blanco's fierce Moroccans from the southeast.

When that time comes, either the government troops will crumble and allow the insurgents to enter, or a desperate stand will be taken on Mt. Tibidabo, the highest hill in Barcelona, marking actual beginning of the civil war's most savage siege.

Insurgent authorities remained confident the government position would prevail and declared the defenders of Barcelona are already "sundering by the thousands."

Rush to Front
Barcelona, Jan. 25.—Almost the entire population of Barcelona, including hundreds of women, rushed to the front today in a final, supreme effort to prevent the fall of the government's provisional capital.

Despite the nearness of the insurgent troops, who pounded their way into the suburbs of the city, complete order reigned.

Generalissimo Francisco Franco's forces poured incessant artillery and aerial bombardments upon Barcelona, hoping to break up the defenses sufficiently to permit capture of the capital within a day or two.

Last-Ditch Battle
But the government troops, reinforced by reserves hastily rushed from civilian tasks to the firing line, resisted the onslaughts of the attackers feverishly in a bitter, last-ditch battle.

As the inexorable forward drive of Franco's legions continued, a large party of foreign correspondents and the government's censorship department left for Girona and Figueras to the north. At a late hour today the French embassy was the only diplomatic mission remaining in Barcelona.

Artillery shells and aerial bombs rained down on Barcelona as the ground forces of Franco waited for the signal to storm the inner city. To stem the tide, government defenders, reinforced by thousands of volunteers, desperately prepared for a last stand—a battle that may prove one of the decisive clashes of history.

As a slogan the government forces and reserves adopted this battle-cry: "We will defend our city or die in its streets!"

Shouting this vow, they rushed to fill holes which the insurgent guns were opening in the inner defenses at the edge of Barcelona itself.

Americans Leave
Washington, Jan. 25.—The U. S. destroyer Badger has left the port of Caldetas for Marseilles with 20 American refugees aboard, the navy was advised today. They included 10 women and three children, but no names were given.

Perpignan, Franco-Spanish Border, Jan. 25.—The entire staff of the United States embassy in Spain, as well as Consul-General Waller C. Thurston and a group of American newspaper correspondents, boarded the U.S.S. Omaha today off Caldetas, 24 miles north of the beleaguered Spanish capital. About 30 persons comprised the American contingent.

SCOTLAND UNION
The Scotland Union met at the home of Mrs. Merle Davis, Porter street, for the January program. Miss E. Wallace led the devotions.

Miss Elizabeth Taylor, the president, called for reports. The treasurer stated that all members but six have paid their dues for the year. One quilt was reported finished and another will be started at once. The money to be used for educational purposes. A Frances Willard tea is planned, but the date was not decided on. Eight members attended the Loyalty Luncheon.

Mrs. Wylie Wallace had the paper for the evening, "Into the Laws of the Land," which was followed by a discussion of local and state option. The hosts served delicious refreshments. The next meeting will be at the home of Mrs. Wallace.

FRANCES WILLARD UNION
Frances Willard W. C. T. U. held their first meeting of the year in the home of Mrs. M. D. Allen, 604 Spruce street, with 28 members responding to roll call. The devotional period was conducted by Mrs. M. R. Newbury.

Dr. W. V. McLean delivered a very forceful and inspiring address on the subject, "The Liquor Problem." It was announced that the unions of Lawrence county were placing a shelf of temperance books in the city library.

The deaths of two members was announced. They were Miss Margaret Young and Mrs. Phoebe Simmons.

Plans are being made for a Frances Willard tea in the immediate future.

Dainty refreshments were served by the hosts, assisted by Mrs. H. B. Williams.

Philadelphia Man Commits Suicide; Falls Five Floors

(International News Service)

PHILADELPHIA, Pa., Jan. 25.—Charles Wesley Brennan, 52, a salesman for an investment trust company, committed suicide today by leaping to death from the fifth floor stairway of Philadelphia's city hall.

Apparently waiting until an elevator operator on the floor descended, Brennan climbed over the railing surrounding a main stair well in the southeast corner of the building and plunged to the ground floor.

His body was discovered by the elevator men, Edward Williamson, who told police he had seen Brennan on the upper floor but that the man paid no heed when asked if he wanted to descend.

Brennan was identified by an automobile driver's license in his pocket. Scrawled in pencil, a note in his pocket was addressed to "Beloved Catherine" and read:

"You have been a wonderful wife. I love you. I have been a fool. This is the only way out."

installed. In the auxiliary machinery will be circulating pumps, boiler feed pumps, coal pulverizers and feed water heaters.

A wall separates the turbine room from the boiler room and the huge boiler is being lined with fire-brick. A preliminary test known as a hydro-static test was made on the boiler. It was subjected to a total pressure of 1300 pounds per square inch when the water was stationary. No leaks of any consequence were disclosed it was stated.

The exterior and interior of the building are brick. The offices will face south. A driveway is to be made from near the office section to the West Pittsburgh road it was stated. The grounds will be graded then planted with grass which will help to set off the huge building.

Substation Progresses
Work is also progressing on the outside substation plant. Concrete is being poured for the transformers and other equipment for the substation. The steel tower transmission line to the Cedar street substation of the company will soon be erected. All the foundations have been constructed for the line approximately 3½ miles.

The outside substation and transmission line must be completed when the power plant begins operation. The electric power will be transmitted to the Cedar street substation. The plant at West Pittsburgh can also serve Ellwood City and other territory.

A coal yard, located north of the building, has a capacity of 120,000 tons. A railroad track runs into the yard. At present there are 7,500 tons of coal in the yard. Coal handling equipment is under construction. It can be either conveyed from the yard, cars, or trucks by conveyor to the pulverizers by pushing an electric button.

French Exhume Statue Buried Over 100 Years

(International News Service)

PARIS.—The statue of Saint Roch, buried for more than a century in the churchyard of the romantic little church of Bridero near Loches, was exhumed and has been replaced to its place of honor among solemn ceremonies.

The state institute for the preservation of the historical monuments

discovered recently, hundreds of years after the event, that St. Roch had been removed from his pedestal and buried against the wall of the church, because the women of the village were frightened by the terrifying features of the statue.

The parish priest, who interred the saint to please the women, permitted St. Roch, however, to keep his head on a level with the ground, visible only to those who knew his resting place and cared to venerate him in secret.

TEACHERS HOLD PARTY FOR MRS. L. E. DANDY

Teachers of the Beginner's Department of the First Baptist Sunday School, entertained jointly at a party on Monday evening to honor Mrs. L. E. Dandy, East Maine street, marking her twenty-fifth wedding anniversary.

The occasion was in surprise fashion, and upon arriving at the honoree's home, where it took place, an informal program of entertainment featured. A lovely gift was presented to Mrs. Dandy, in behalf of the group.

Mrs. D. Harris captured the contest prize of the evening. In serving lunch at the close, Sara Dandy was aided by Mrs. D. C. McClelland.

20th Century Class

There were 26 present at the meeting of the 20th Century Bible class, First Presbyterian church, held in the church parlors Tuesday evening at 8 o'clock. Mrs. C. N. Moore was in charge.

"Meditation" was the subject discussed by Mrs. M. A. Bickett. Various games were played with Mrs. R. G. Magill in charge.

Tea was served from a prettily appointed table with Mrs. A. B. Street and Mrs. C. N. Moore, pouring. Hostesses were Mrs. A. A. Webb, Mrs. O. A. Hartman, Mrs. J. C. Ramey, Mrs. A. H. Simpson, Mrs. Ola Crill, Mrs. Mont Magill and Mrs. E. G. Magill.

The next meeting will be February 28 in the church parlors with Mrs. C. E. Armstrong in charge. Hostesses will be Mrs. C. R. Sherer, Mrs. Ed. Truby, Mrs. Wyatt R. Campbell, Mrs. W. H. Atkinson, Mrs. Howard Magill, Mrs. J. F. McConnell and Mrs. Fred Gemmel.

Guard Club Meets

Mrs. John Earl and Miss Anna Rae, West Washington street extension, were delightful hostesses to members of the W. B. A. Review 98, Guard club, Tuesday evening.

Games of 500 provided entertainment during the hours. High score prizes were won by Mrs. Emma Kiskick and Miss Anna Patterson. Special guest was Mary Earl.

A delicious luncheon was served by the hostesses. Next meeting will be on February 14, in the home of Mrs. McKissick, Neshannock avenue, and Katharine Arblaster will be co-hostess.

Surprise Shower

Girls from Shenango mill numbering 25, where the bride was formerly employed, gathered in the home of Mr. and Mrs. Robert Sheen, near Jewell Murdoch, and tendered her a surprise shower on a recent evening.

Chinese checkers and bingo formed the evening's pastimes. A luncheon was served by Garnet Hoover, Mary Llewellyn and Louise Fry.

Many lovely and useful gifts were received by the honored couple.

Group Has Party

Members of the Intermediate Luther League of St. Paul's Lutheran church held a social time on a recent evening at the home of Andrew Krestel on West State street.

After diversified pastimes, a tasty luncheon was served by Mrs. R. Krestel. February 1 is the date of the next meeting.

Amity Club

Mary Aloe was hostess to Amity club members at a local tea room Tuesday evening. Cards were the chief pastime, with Josie Morganti winning the prize. Refreshments were served at the close of play.

Plans were made for the group to have a dinner and theatre party on Tuesday, January 31. On February 7, Alma Rainey, 9 Darlington avenue, will be hostess.

Recital On Saturday

Mrs. T. J. McPate of 438 Park avenue, will present a group of students in a piano recital at her residence on Saturday evening, at 8 o'clock. A social period will follow the program.

M. N. O. Change

Mrs. Peg Kennedy, Pine street, will entertain the M. N. O. club members on Thursday, February 2, instead of this Thursday, as previously announced.

P. H. C. Meeting

The P. H. C. members will meet this evening at 7:30 o'clock for a business and social time in the I. O. O. F. hall.

Legion Auxiliary

There will be a meeting of the American Legion Auxiliary, on Monday evening, January 30, at the Legion Home at 7:30 o'clock.

Dr. Daffoe's Column On The Quintuplets And The Care Of Your Children

Copyright 1938, King Features Syndicate, Inc.

DR. DAFOE TELLS OF SORE MOUTHS AND CHAFED SKINS

Quite recently I called to see a baby whose mouth was sore and irritated. The child seemed healthy enough in other ways, and I was at a loss to figure out what was the matter. Then the mother herself gave me the clue—she had been, she said, in the habit of cleaning her baby's mouth out occasionally. Apparently after the baby ate she would see white stuff on the tongue and she felt it had to come off.

The result was that her baby's mouth was sore and irritated because she wouldn't leave well enough alone. When I explained to her that the white material she saw on the tongue was just the milk she stopped wiping out the child's mouth and it soon got better.

Sometimes, however, a baby's mouth does get sore. Little white threads or flakes appear on the lips, the inside of the cheeks and the tongue. This is called "thrush." In bad cases, the whole inside of the mouth may be covered with these white spots. When it happens, extra care should be taken with the nipples, for dirty nipples and lack of cleanliness in general are a common cause of thrush.

There is a gentian solution for treating the spots so affected, but my advice is to have your doctor attend the child. He will know best what to do. Thrush isn't a serious complaint and even without special treatment it usually disappears in two weeks.

Practically every baby suffers at some time or another from chafed skin. The first rule in preventing as well as treating such cases is to be very careful of the soap you use. If the skin is chafed, then it is wise to use no soap until he is recovered.

After bathing, the body should be very carefully dried. Too much rubbing causes chafing on the body about as much as anything else. There are certain spots on the body where chafing is most apt to appear—in the deep folds of skin under the arms, in the groin, about

the neck. If the baby is fat, then there is all the more need for care in these parts. The skin should be thoroughly dried after bathing and the parts dusted with a powder like borated talcum. An even better method is to smear the parts with a little mineral oil.

If chafing persists because of the fact that the child's skin is over-sensitive, then it is often a good plan to try and harden the skin a little with salt baths or alcohol rubs. Half a teaspoon of table salt in two gallons of water makes a good salt bath.

If you prefer alcohol rubs, see to it that it is applied to the body every day. In doing it, however, make sure that there are no sores on the body. You need to take good care, too, that none of the alcohol comes in contact with any of the delicate mucous membrane of the eyes, nose and mouth or the genital organs.

If you are using alcohol as a rub, be very careful not to have any flame nearby. I say this because we almost had a tragedy at the nursery when the Quintuplets were only a few months old. The nurse was using the alcohol to rub one of the children. It upset and was ignited by a little alcohol lamp that was burning on the table. The nurse just threw herself on the flames and literally smothered them with her body. But she was badly burned in doing it.

Louis B. Round, general chairman of the Greater New Castle Association, will explain the purposes of the organization.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning! The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks pink. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Refuse anything else. At all drug stores. 10¢ and 25¢.

Scout Councilmen To Watch Workings Of City Thursday

Young Men Who Will Reign
During Scout Week To
Watch Council Work

In order to discover just how the City of New Castle is operated, the four young men, Boy Scouts, who were elected to the positions of Councilmen by their fellow Scouts, will meet with City Council on Thursday morning at 10 o'clock.

It was the suggestion of Mayor Charles E. McGrath, that the young men come to the City Building at this time. In this way the Scouts will be prepared to take over the duties as "honorary councilmen" on Saturday morning, February 11.

This event is part of the celebration of National Boy Scout Week, February 8-14.

Due to the fact that all of the Councilmen Scouts will be free from other duties on Thursday, and also that it is the day that Council will meet, it was suggested that the boys meet with the "big shots" at this time.

Scouts who were elected to council are: John Gaston, Jr., Richard Klingensmith, Raymond Flavin, and Bud Fisher. This group is headed by Vern Dufford who was elected as Mayor.

Two Life Saving Courses Planned

National Red Cross Leader Will
Be Here Soon To Give
Instruction

Charles Brest, chairman of life saving and water safety of the Lawrence county chapter of the American Red Cross, has been notified by Washington that the chapter is again to be favored with a visit of one of the national leaders in life saving and water safety. The course is to be divided into two phases: the preliminary training course and the teachers' training course.

The preliminary training course is to be conducted in New Castle as well as in New Wilmington under chapter leaders and includes all examiners, instructors and senior candidates.

Mr. Brest calls attention to the fact that all those interested in securing their certificate or in taking further work in this particular branch should immediately enroll either through the Red Cross office or by contacting him personally at his home, 1005 Dewey avenue, phone 2657.

Nutrition Class Being Organized

New Service Offered To House-
wives By Lawrence Coun-
ty Chapter

A new service of the Lawrence county chapter American Red Cross is to be started within the next month. Miss Bodenstien, executive secretary, and Miss Lenore Taylor, instructor in nutrition, are announcing the enrollment for a nutrition class which will be of eight meetings an hour and a half in length. The aim of this class is to give to the people attending, knowledge of the relation of food to health; to develop good practice in the preparation and the purchase of foods; and to develop the daily practice of desirable food and health habits. All those desiring to enroll in this class should immediately make application at the Red Cross office.

Reports That 970 Claims Were Filed

With the average of Pennsylvania claims paid under old-age insurance provisions of the Social Security act setting a new high of \$73.71 during December, 1938, Weiland J. Michael, manager of the board's New Castle field office, announced today that 970 claims had been paid up to January 1 in the area served by his office.

"It is natural that the amount of the average claim should increase from month to month," Michael said, "because all of the wages received in covered employment after 1936 are used as the basis for computing the claim. The claims are payable to workers in covered employment upon attainment of age 65 and to estates or close relatives of such workers who die. All the payments now being made are in lump sums."

Michael pointed out that Pennsylvania's claims during December exceeded the national average of \$65.63 by more than 12 per cent. This he attributed to higher average pay scales in Pennsylvania than throughout the nation.

UNEMPLOYMENT FUND HAS LARGE RESERVE

HARRISBURG, Jan. 25.—The Pennsylvania Unemployment Compensation Fund on January 11, contained \$68,458,536.99 despite the fact that from February 1, 1938 to January 11, 1939 nearly 900,000 unemployed Pennsylvania workers had withdrawn \$73,505,458.70 in Unemployment Compensation benefits.

Moreover, the balance will be substantially increased within two weeks, when an estimated \$18,000,000 will be added to the Pennsylvania Unemployment Compensation Fund by payments for the fourth calendar quarter of 1938 from 140,000 Pennsylvania employers. These contribution payments are due January 31, 1939.

According to present indications, upwards of \$75,000,000 will be paid into the Fund for 1939.

URGES ACTION TO AID SPAIN
707 Cumberland Ave.
New Castle, Pa.
Jan. 24, 1939.

The Editor,
The New Castle News,
New Castle, Pa.
Dear Editor:

One month ago I returned home from Spain. As an American volunteer I served with the Spanish Loyalist Army for twenty months in the fight for democracy. I feel that I am capable in speaking about the Spanish war.

In my experience I have witnessed the bombing by German and

Italian planes and how helpless these people are against these attacks. Since my return I have followed very closely all the newspaper reports in regard to Spain. I read of the latest bombing of defenseless women and children in Tarragona, Barcelona and other cities. I read of the refugees who are forced to travel along the highways that are an open target to these planes. It recalls to my mind an incident I experienced while in Spain. At Teruel last February after an artillery barrage of enemy shells we found some shells which failed to explode

and were we shocked to find them marked "Made in Pittsburgh—U.S.A."

This brings to my mind the significance of what President Roosevelt said in his address to Congress on January 5th, "We have learned that when we deliberately try to legislate neutrality, our neutrality laws may operate unevenly and unfairly—may actually give aid to an aggressor and deny it to the victim."

As an American I would like to make a humanitarian and Christian appeal to my fellow citizens who are readers of the New Castle News to do all that is in their power to see that the arms embargo is lifted against the Spanish government. If people here could only realize how the embargo affects the Spanish people in their fight for democracy against the aggressors Mussolini and Hitler. If we were only aware of the fact that Italy and Germany who officially are not supposed to be at war are able to buy all the arma-

ments and munitions necessary from the United States of America to wage this war in Spain.

I appeal to all my friends and fellow citizens in Western Pennsylvania to write or telegraph our senators and congressmen, also to our president to "Lift the embargo" against the Spanish government and to place an embargo against Italy and Germany.

In this way we could save not only thousands of lives but we could do our bit to defend our own democracy and the peace of the world.

One who is ready to fight so that democracy may live.

WHERE DO I FIT IN?

WHAT is my responsibility?
HOW am I represented?
WHAT does my opinion count for
in the Greater New Castle Association?

All natural questions—The answers are contained in the GNCA organization plan detailed below

Note how every element in the community finds its niche in one of the six major classifications. Each of these six groups has but one-sixth of the voting power on both the advisory council and on the board of directors. This is a unique feature of the organization plan. Every community interest has representation, every community interest has equal voting power. Domination by clique or faction is impossible.

On that basis it solicits your support and at the same time feels that every citizen alert to the best interests of New Castle will be willing to grant that support.

Mahoning School Orchestra To Play

Will Take Part In Benefit Concert At Senior High School Tonight

At the public benefit concert to be given at the senior high school tonight, the Mahoning school orchestra will take part. For many years the Mahoning school has been exceedingly proud of their orchestra, and this year it has one of the finest.

The orchestra is composed of 43 members with Miss Gwladys M. Thomas as director. Evelyn DiVito and Marie Orlando are accompanists. For the concert tonight, the orchestra will dress in outfits of white and red, the school colors.

Instrumental solos will be played by Raymond Melchior and Ralph Garafalo. According to Miss Thomas, quite a number of Seventh Ward parents and friends are planning to attend this concert. Proceeds from the show will be used to purchase music stands for the schools that do not have them.

Attend Funeral Held In Sharon

In order to attend the funeral services for Michael Milosievic of Sharon, following relatives motored to Sharon: Margaret Perretta, South Lafayette street; Mary DeMarco Cherry street; Florence Lombardo and Angelo Piccarello, Lafayette street.

The deceased passed away in the Buhl hospital in Sharon last week and was buried in a Sharon cemetery. He was a resident of Farrell. Mrs. Perretta is still in Sharon with the family of the deceased.

Michael Diffley In Fair Condition

According to reports from the Jameson Memorial hospital this morning, Michael Diffley of North Ashland avenue is in fair condition. His physician stated that he was getting along as well as could be expected under the circumstances.

Diffley lost his right leg just below the knee Tuesday morning when he fell beneath the wheels of a train on the P. & L. E. railroad tracks in the ward.

NEWS BRIEFS IN WARD DISTRICT

Many out-of-state automobile tags are seen daily passing through the Seventh Ward. Despite the fact that weather conditions are bad for travelling, the tourist traffic never seems to let up.

All along the route that the children take to school each day, a snow ball battle rages at noon and in the afternoon when school closes for the day. The kids have a wonderful time romping in the snow and sometimes one wonders how they manage to get to school on time.

It was announced today that the Seventh Ward Progressive club is now working on a plan whereby the ice skating rink might be more adequately lighted. Night skating is popular at the rink, but there are not enough lights to provide sufficient illumination.

From the number of new automobile cartage trucks that pass through the district daily, carrying new cars, one would get the idea that the automobile industry is highly prospering.

Persons going to the Universal Pottery Company now make regular use of the new roadway, completed this month. The roadway does away with the dangerous railroad crossings that were on the old route.

Civic minded citizens should take a little pride in the district, and not litter the streets with waste paper and trash. There is a can placed in front of the post office for old paper and the like.

Stream Of Dimes Goes To President

Mahoningtown Post Office Handling Many Letters In Big Campaign

Mahoningtown people are doing their part in the big fight against infantile paralysis, according to a report from the Mahoningtown Post Office. Edwin McBride, superintendent of the office, stated today that quite a number of letters addressed

to President Roosevelt are being received daily by that office.

Most of the letters carry dimes, destined to be added to the March Of Dimes, sponsored by the president to aid those persons afflicted with infantile paralysis.

A number of calls have come to the office inquiring whether or not a stamp was required to carry the letter to Washington. McBride stated that no special privileges have been made for this campaign and a stamp of three cents denomination is required.

IS IMPROVING
John Coffie, North Liberty street, who fell sometime ago and fractured his leg is reported to be improving. Coffie is confined to the New Castle hospital and for a few days his condition was reported as being serious. The hospital report today showed that he had a "fair" night and his condition was good.

Autos Collide On Wilmington Road

No one was injured when automobiles driven by William Groover, of Meadville, and J. M. Stahlman, of Beaver, collided on the New Wilmington road last night about 7 miles from the city. Mrs. Groover, a passenger in her husband's car, was badly shaken up.

The Groover car was travelling north when it skidded, hit a culvert and bounced against the Stahlman car, then ran down an embankment, turning completely around. Both cars were damaged.

NEW CASTLE HIGH LOSES TO BUTLER HIGH 28-21

Four-Way Tie Now In Section Three

New Castle Fails To Penetrate Fine Zone Defense Used By Butler High

Bombyk Stopped With Five Points, Cutler And Huey Stars Of Game

As the first-half of Section Three ends there is a four-way tie for the leadership and it all caused by the Butler High 28 to 21 victory over New Castle here at the Arena last night, and the fact that Aliquippa hung a 47 to 31 defeat on Ambridge High.

One of the biggest crowds of the season watched the Butler High team throw up a swell zone defense that had the locals worried. It was at the foul line that New Castle lost considerable ground, making but 5 out of 11, while Butler took advantage of the charity heaves by making 10 out of 12. In field goal tossing the Siljander team was only one better than New Castle, 9 to 8 but those foul tries—oh me, oh my!

Butler Starts Fast
New Castle led but once in the entire game and that was in the first few seconds when Ray Bombyk got loose and made a shot from the side of the court that counted for two points. Cutler of Butler made two foul tries good a few seconds later and then shot another foul to put Butler in the lead 3 to 2. From this point on, the New Castle boys were trailing.

The first period ended 7 to 2, with Bombyk's field goal at the beginning the only points that New Castle could get. Cutler and Huey made all of the points for the Soapminers.

14-13 End Of Half
It was in the second period that New Castle looked the best during the game, and outscored Butler 11 to 7, to trail at the end of the first half 14 to 13. Coach Siljander broke up his starting combination at the start of the second period by sending in Iannotti and Andrews and New Castle sensing this fact went to work and put themselves back in the ball game. Lauro near the end of the half flipped in a two-pointer for New Castle to tie the score at 13-13.

Ben Franklin Junior High topped the St. Mary's high team of Warren yesterday at the Franklin floor 22 to 15, with the locals ahead at the half 8 to 4.

New Castle spurted somewhat at this point and Wenda slipped in a field goal to make the score 18 to 16 Butler, as the timer said three minutes and 40 seconds left of the third period. Cutler made two fouls and ran the score to 20 to 16 Butler, then Wenda made a charity heave and Huey came back with a fielder to put Butler in front 22 to 17 as the third stanza came to a close. New Wilmington And Bessemer Lead Pack As First Half Ends Tuesday

Tuesday night was meant for basketball upsets and nothing else in Lawrence county.

While an inspired Butler high aggregation was pinning back the ears of New Castle's Red Hurricane, New Wilmington high, minus the services of "Lefty" Minner, removed Bessemer from the list of undefeated W.P.I.A.L. teams, 33-31, to earn a tie for leadership of Section 20, as the first half ended.

The upset of upsets occurred in East New Castle where a hard fighting Mt. Jackson high team put the dampers to Shenango township's powerhouse, 22-20. In Scotland Lane, Union township put on a second half spurt to tumble Wampum, 30-22.

Most of the Section 20 clubs start their second half fight on January 31.

Epworth, First M. E. League Winners

The end of the first half of the New Castle Church league tonight at the "Y" finds the Epworth M. E. team the AA champions and the First M. E. team the Class A champs.

No matter what the results tonight, the leads cannot be changed and there will not be any playoff necessary for the first half crowns.

MUSTANGS WIN GAME

The Mustangs defeated the Price Five of Beaver Falls, Pa., last night at the Beaver Falls floor, 14 to 11. Best for the Mustangs was Evans and McCartney, and for the losers it was Ross and Boggs.

New Wilmington Trips Bessemer High 33 To 31

New Wilmington Upsets Dope Bucket In Section 20 With Victory; Mercer Stars

New Wilmington high basketball team somewhat changed the complexion of the Section 20 W. P. I. A. L. race last night at the Bessemer high floor by taking a surprising 33 to 31 victory over the league leaders.

Bessemer led at the start of the game, then New Wilmington took the lead at 9 to 6 at the end of the first period and the lead saw-sawed back and forth the rest of the way. At the half it was 12-12. Calderaro of the Bessemer team and Wilson and Shaffer of the New Wilmington team were forced out of the game on fouls.

New Wilmington will play Ellwood City Friday at Ellwood City, and Bessemer will play Ursuline high of Youngstown at Bessemer. The stars last night were Mercer and Zornich.

Rubin, Moran And Brooks To Fight

Gibson, Arkett, Medwick, Local Boys Also On Monday's Card

RUBIN HOPES TO STAGE COMEBACK

Five of the eight boxing bouts which will be staged by the Jefferson Athletic club in The Arena, Monday night have been arranged. The other three will be arranged some time today. Of the number already booked indications are the fans will witness several knockouts, the fighters who do on sock rather than science having been engaged.

It will be the first appearance of Mickie Rubin, local light-heavyweight since he was skidded upon the canvas by Dave Nemeth. Providing Mickie can flop Browne Val etuch of Pittsburgh, he will be given another chance against Nemeth. Mickie has been a forlorn figure since he was so ignominiously dumped and is training for a knockout comeback.

However, Mickie will not be the only local big chap on the card. Indeed not, because Mickie Medwick who showed lots of promise a year ago is in training. He will oppose a heavyweight from either Pittsburgh, Youngstown, or Alliance. He is training with Rubin in the Jefferson A. C. gym on the Public Square.

Another chap who is very popular with local fans will fight. He is Frankie Moran. Frankie underwent treatment for a nose ailment but is now in good condition. His opponent will be Pete Scorr of Pittsburgh. They signed to fight at 126 pounds. Moran hopes to make a stellar showing Monday evening.

Gibson To Box
Halbert Brooks alias "Dancing Feet" of Moravia street will take on Jimmy Graham of Pittsburgh, at 147 pounds. Halbert is one of the swiftest punchers produced here. Should Graham like to keep swinging with Halbert there is small question to his being accommodated.

Buck Chambers, another swing-smith who hails from West Pittsburgh, will oppose Harry Potts of Pittsburgh, at 160 pounds. Chambers will be supported by scores of fans. Jimmie Gibson, brother of Pop-Eye, the latter a former professional fighter, is being drilled by Mickie Solomon, for a bout Monday night. He won his first start several weeks ago. Chuck Arkett, lightweight of West Pittsburgh, will also appear on the card.

High Reserves Defeat Butler

The New Castle high school Reserves basketball team topped the Butler high Reserve team last night at the Arena in the preliminary game 23 to 14, with Buell, Walls and Wigton the stars of the game. At the half the locals led 7 to 4.

Union Defeats Wampum Cagers

Scotland Laners Annex 30-22 Triumph In Fast Sectional Game Tuesday

Coming back from behind, Union Township high school's cage combination registered a 30-22 victory at the expense of Wampum high, Tuesday night, in a Section 20 tilt played at Union floor.

The Wampumites took a 7-3 lead as the initial quarter ended. At half-time, the Union cagers trailed by an 11-10 count. The Scotland Laners grabbed the lead in the third canto, hitting the cords for 10 markers, while Wampum garnered five. Covelli and Chialfallo led the attack for Union, getting 21 points between them. Hervatine and Frank were Wampum's outstanding performers.

Union has an open date Friday.

Expect Joe Louis To Beat John Henry Lewis In Title Bout Tonight

Betting Even Money That Lewis Proves Early K. O. Victim

Lewis Only Chance, Experts Claim, Is To Win Decision

By LAWTON CARVER
International News Service Sports Editor

NEW YORK, Jan. 25.—Approximately \$100,000 worth of cash customers will roar again tonight in Madison Square Garden, and possibly they will be heralding the crowning of a new world heavyweight champion, but more likely the chorused hollering will indicate that J. Barrow Lewis has got his man, and that attendants can scrape up J. Henry Lewis and cart him away.

Louis, the champion, expecting to scale 201 pounds, and the challenger, at about 183, left their suburban camps today and motored to New York for weighing in ceremonies before the boxing commission surrounded by all the hoopla and excitement and kibitzing which customarily accompanies these proceedings.

Betting odds fluctuated between 6 and 8 to 1 on the ominously morose, sepi-toned champion to retain his pugilistic empire against the slightly darker hued challenger, and it was even money on a knockout inside of five rounds. But there was virtually no wagering. If the title should change gloved hands by some miracle it will be one of the biggest upsets in boxing history, and the perpetration thereof will come about in the first all-Negro heavyweight championship fight ever held in America.

It generally was agreed today—with J. Henry adding to the note of unanimity—that his lone chance rests on his staying the scheduled 15 rounds and winning the decision. That would be a major surprise. If he should score a knockout the thing will be nothing less than a nice, neat little catastrophe visited upon the assembled experts.

John Henry, a game fellow and a thoroughly competent workman among light heavyweights over whom he has won every fight, is pinning all his hopes on his boxing ability and whatever speed he may be able to muster. The trouble is he has fattened up in the last couple

(International News Service)

NEW YORK, Jan. 25.—Here are the pre-battle statements of the two principals in tonight's fight:

By JOE LOUIS
"John Henry Lewis will be just another fighter to me tonight. I will win just as soon as I can. It all depends on whether John Henry makes a fight of it. If he runs or won't open up it may take a little longer than the three rounds I figure on. If he stands up to me I don't think it will go further than that."

By JOHN HENRY LEWIS
"I know I am a better boxer than Louis and faster on my feet. I've had more experience. I am not going to gamble on a knockout unless the chance is too good to miss, but I expect to be there at the end of 15 rounds to accept the decision. If it goes that far I am sure to outpoint him. I am not afraid of him, but of course, I respect his punching ability."

of years for heavyweight engagements and has, therefore, sacrificed some of his fast stepping. He never was much of a puncher.

On his side then is experience gained in 99 fights—this being his 100th—thorough seasoning, some speed, boxing finesse that is thrilling to watch, a fine left hand and unlimited courage. He has never been knocked out and has been floored in only two bouts.

The champion, in comparison, is a good boxer himself, and, although slow about with his shuffling, probably as fast with his hands as any heavyweight that ever lived, and almost literally a killer with his punches. He can take a punch to the head too well, but probably won't have to tonight. He has so much all around class that I can't see how he can possibly miss.

For one thing he will have a physical advantage in height, reach and weight. As for age, they both will be 25 in May. Compared with Lewis' 100 fights dating over nearly a decade, the champion tonight enters his 41st, but this disparity in experience probably isn't significant.

The one thing against Louis' chances is a seven months' layoff since his last bout, when he stayed in Max Baer's side and sent him to the hospital. Moreover, in the last two years he has fought 48 rounds in eight bouts, contrasted with 252 rounds in 31 bouts in the same period engaged in by the challenger. This may be important before the evening is over, but it shouldn't be.

John Henry can't win unless he gets close enough to land his fists and anytime he gets that close he lays himself wide open to a brain-scrambling punch. Sooner or later he probably will be smashed into unconsciousness.

Pulaski Reserves Defeat Castletons

The K. Pulaski Reserves won from the Castletons last night at the K. P. hall 43 to 38, with the score at the half favoring the Castletons 26 to 14. Scoring stars of the game were Plonka, Ryczay, W. Kimmel and Bill Stephenson.

The East Liverpool Roamers failed to show up to play the K. P. Big Five, on account of slippery roads.

Colored Quintet Greatest In Land

Renaissance Team Presents Collection Of Basketball Wizards

New Castle fans have an opportunity of seeing the most spectacular quintet in basketball Saturday evening at The Arena, when the Renaissance battle the New Castle Boosters at 8 o'clock.

Led by "genial" but tricky "Pat" Jenkins, the Renaissance will trot out the same lineup which last year ran up an amazing record of 121 victories. These sepiant giants, "Tarzan" Cooper and "Wee Willie" Smith, alternate at the pivot position. Eyre Saich is the spark plug of the team while Johnny Isaacs is another standout player. In basketball circles, the team ranks as the greatest combination in the land. It was announced today that the game will start promptly at 8 o'clock, so that it will not conflict with the president's ball.

Coach "Fris" Fraser is mapping out a special attack in the hope of stopping the floor wizards from New York who have toppled such teams as the New York Celtics, Philadelphia A. L., Pittsburgh Pirates and dozens of other clubs. One of the biggest galleries in years is expected to see the attraction.

Tonight the Boosters travel to Youngstown to battle the strong Patricians. Friday evening's attraction at The Arena brings the Boosters against the crack Oil City Hub-Oilers of the Penn-Ohio League. The Oilers have Rich Ahrens, former Long Island cager, who stands a mere 6 feet 11 inches in height.

Mt. Jackson High Spills Shenango

East New Castle Five Goes Down, 22-20 In Game Played Tuesday

One of the biggest upsets of the season was chalked up at Shenango floor Tuesday night when an inspired Mt. Jackson high quintet spilled Shenango high's Section 20 tile contenders. The final score was 22 to 20.

The schoolboys battle to even terms in the first chapter 4-4. The Jack passers continued their impressive playing, walking off at intermission with an 8-6 margin. The Shenango lads forged ahead 15 to 12 as the third period whistle sounded. Mt. Jackson put on one of the most sensational rallies of the year to score an upset.

McConnell paced the winners, dropping five two-players. P. and D. Razzano accounted for ten points between them. Francis Pitzer was Shenango's best bet, ripping the cords for 11 points. Ovis garnered six markers.

In the preliminary game the Shenango lads defeated Mt. Jackson lasses, 29-21. Friday evening Chi-cora high plays the Shenango boys' varsity at Shenango.

Falcons Tounce East Palestine

Putting on one of the most spectacular displays of basketball seen this year, the smooth clicking Polish Falcons rang the victory bell again Tuesday night, touncing the East Palestine Casa Loma passers, at the Falcon hall. The final score, 43-24. The locals grabbed a 6-2 lead in the first period and increased it to 19-6 at halftime. By the end of the third period, the game was in the bag 35-8. Every Falcon player hit the mesh for at least one field goal. Dolan featured for the losers, getting 12 points.

Kiwanis Club Enjoys Address By Mr. Johnston

Illustrates Talk On International Conditions As They Are Today With Charts

ELLWOOD CITY, Jan. 25.—Kiwanis in their weekly meeting last evening was entertained by one of Ellwood City's outstanding speakers, V. V. Johnston, Mr. Johnston spoke on "International Conditions As They Are Today."

By the use of his charts, on population areas and the increase of population of the seven great powers of the world, Mr. Johnston, with his inspiring speech, held the interest of every member of the club for the full thirty minutes in which he spoke. His charts really were a work of art and very easy to follow during his talk.

The twenty-fourth anniversary of the founding of Kiwanis International was celebrated last week by over 101,000 Kiwanians throughout the United States and Canada. In Ellwood City, all Kiwanians joined in this international observance.

The first Kiwanis club was organized in Detroit in 1915 and held its first meeting on January 1 of that year. Today in the United States and Canada there are 1992 clubs.

At the meeting last evening, Dr. H. S. Gold, one of the past presidents of the local Kiwanis, read a speech from H. G. Hatfield, of Oklahoma City, Okla., president of Kiwanis International, addressed to the local Kiwanis, in which he spoke of "Looking Ahead" in 1939 rather than back to 1938.

Y.P.C.U. Society Has Tureen Event

Sixty-Four Members, Guests Attend Delightful Affair Held Tuesday

ELLWOOD CITY, Jan. 25.—One of the most enjoyable activities of the week took place last evening in the United Presbyterian church dining room when members of the Young People's Christian Union society held their monthly social affair in the form of a tureen dinner.

At 6 o'clock, the 64 members and guests attending, found places at an attractively appointed table and were served a sumptuous dinner by a committee composed of Miss Virginia Weider, chairman, Mrs. Frank Gross, Jr., Miss Hannah Lowry, Miss Esther Young, Miss Virginia Fraser and Miss Martha Potter.

James Van Gorder filled the role of toastmaster in an accomplished manner and kept the enjoyable program progressing in a humorous manner. After the dinner group singing was led by Frank Gross, Jr. Included in the program were: humorous reading, Miss Alice Jane Shirley; violin solo, Bernard Newton; piano solo, Edwin Gamble; and a vocal solo, Miss Martha Potter.

L. D. Smith, of Beaver Falls, was the speaker of the evening and he gave a most thought provoking and worthwhile talk on youth adjusting itself to conditions around them in regard to the future.

Officers and committee chairman will hold an executive meeting on Tuesday evening, February 14, at which time arrangements for the February social activity will be outlined.

SUPPER POSTPONED
ELLWOOD CITY, Jan. 25.—Owing to conflicting activities, a supper-kraut supper planned for Saturday night by members of the Auxiliary of the local fire department has been indefinitely postponed. Mrs. C. B. Kingston, the president, announces.

Scout Council Court Of Awards Planned In March

Girl Scout Leadership Training Class To Be Held February 6 At Magee Home

ELLWOOD CITY, Jan. 25.—When members of the Girl Scout council of the Ellwood district gathered last evening in the Scout room of the City building for their January meeting, plans were formulated for a court of awards to be held early in March.

The third in a series of Girl Scout leadership training classes will be held on Monday evening, Feb. 6, with Mrs. T. B. Magee to be hostess at her home in Spring avenue.

Routine reports were given and members were glad to learn that a nice sum had been realized from the recent rummage sale. Troop leaders are asked to turn in all money from the recent cookie sale. There are still quite a number of cookies and the council agreed to donate them to the recreational project for boys held each Saturday night in the City building under the guidance of the Phalanx fraternity and the sponsorship of the Woman's club.

U. P. Church To Honor 180 Members

Banquet On Friday For Members Who Have Perfect Attendance Record For 1938

ELLWOOD CITY, Jan. 25.—Highlighting Friday night's activities will be a banquet to be held at the First United Presbyterian church dining room.

The affair will honor 180 members of the Sunday school who have attained a perfect attendance record for 1938 by attending classes on 50 Sundays of the year. An increase is noted in this record, 164 being the number that was feted last year.

A fine program is being arranged for the affair by the superintendent, James Brown. The principal feature of the evening will be an address by Dr. A. J. Randles of Pittsburgh, superintendent of Sunday school work of the U. P. church.

V.F.W. Committees Report Progress In Various Activities

Tri-County Council To Be Entertained Here On Friday, February 10

ELLWOOD CITY, Jan. 25.—With Commander W. P. Herr in the chair and a good turnout of the membership, the regular meeting of the local post, 252, Veterans of Foreign Wars, convened in their Fourth street hall on Tuesday evening.

The radio committee reported progress, as did the bicycle safety club committee.

Comrade Duncan of Indian Harbor, Ind., a visitor, was called upon for remarks, and he stated that as a native of this city he was glad to visit the local post.

The sick and benefit committee, composed of W. P. Herr, N. J. Bauer, Harry Turner and Robert Hodgson, reported progress in obtaining material for rules and regulations of the new activity.

A recent dinner for active and social members was a decided success.

The commander appointed a committee to assist the junior drum and bugle corps, composed of himself, Stanley Haddock, Robert Hodgson and Frank Goodman. Mr. Hodgson stated that the film on the Poppy Day program was available.

The Laidon committee, Harry and Donaldson, reported progress.

On Friday evening, Feb. 10, the Tri-County Council will be held in this city and those who have attended know that it always means a good and interesting time. The post, council and auxiliary are in charge of the arrangements.

Frank J. Goodman again emphasized and repeated the national anthem in Americanism program.

Another meeting will be held at the hall on Tuesday evening, Feb. 14.

Loyal Orange Lodge Plans District Meet

ELLWOOD CITY, Jan. 25.—On Tuesday evening members of the Loyal Orange lodge gathered in the First National bank hall for their regular semi-monthly meeting.

Plans were made for a meeting of the Victory District Lodge No. 14, to be held on Friday evening, February 24, at New Castle. George W. Roe was elected as the representative of the local lodge.

The remainder of the evening was spent socially with cards as the diversion. Another regular meeting will be held on Tuesday evening, February 14, at the usual place of meeting.

MRS. LEONARD HAZEN IS HOSTESS TO CLUB

ELLWOOD CITY, Jan. 25.—Mrs. Leonard Hazen received members of the Delta Deck club in a pleasing manner on Tuesday evening at her home in Wurttemberg, for the bi-weekly session. Mrs. Lloyd Hamill was the evening's special guest.

Cards played at two tables held the attention of the group with the first place awards going to Mrs. W. J. Rutter and Mrs. Howard Worley, who invited the members to meet at her home in Wurttemberg, on Tuesday evening February 7.

In serving a tasty lunch, the hostess was assisted by Mrs. Hamill and Mrs. W. G. Strouse.

SHELBY GAMES

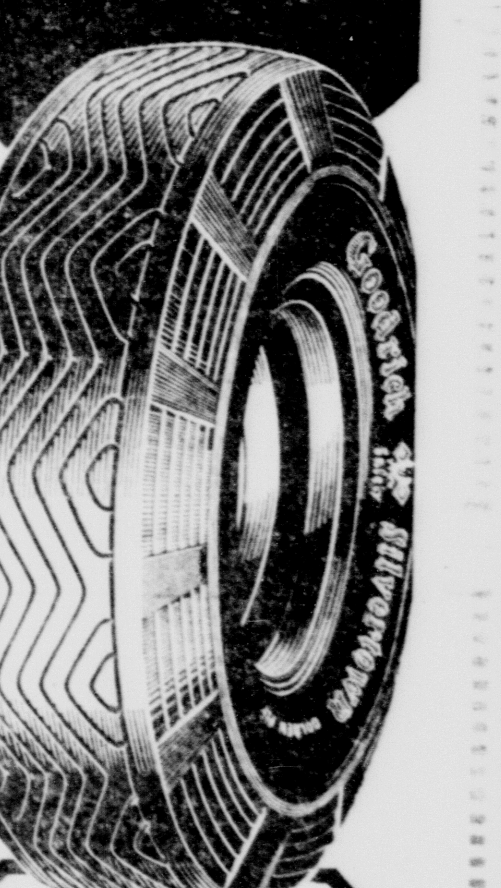

ELLWOOD CITY, Jan. 25.—The tie for first place in the second half of the Shelby basketball league will be shattered tonight when the Inspection plays the Office and the Cold Pishish tackles the defending Hot Finish champs.

With the addition of a number of high school players to the league roster, the various teams have been greatly strengthened and from the results of the first game a warning has been sounded that the second half race is going to be close and hard fought.

W. M. SOCIETY

ELLWOOD CITY, Jan. 25.—Mrs. Harold McQuiston will entertain members of the Mary Rush society of the Lilyville Church of God on Thursday at the home of her mother, Mrs. Elsie Hall, of near Lilyville.

FROM ME TO YOU

By MESEALL.

Honesty is the best policy... especially where an organization is concerned... we are not in the position to mention names at this time but it seems that certain things are being pulled that are not exactly cricket in some of the organizations of this town... the only thing to do is just listen and keep quiet... People who don't play the game fair are always caught... it might take some time but they are always caught... crime in no way pays.

What a wind we had blowing over this fair city this morning... drifts were in the making and it reminded us of the time we were in the Egyptian desert and a sand storm broke loose... the sand rose up around us and the mountains shifted right before our eyes... yes it reminds us of that time, conditions are so different. It was warm that time, the sand tasted differently, we were riding camels and the distance was so great... the thing in common was the wind... As related to us by a world traveler. Who's crazy?

In Monday's paper we mention that we had been trying to find out some information concerning the Republican and Democratic Parties. Their emblem and why it was founded. Here is a little information and we give the credit for looking it up, to Mrs. Al Bantz... and we really do appreciate your efforts. According to Mrs. Bantz the Democratic Party "Donkey" made its appearance on the 7th day of January 1870 in a cartoon by Thomas Nast... and on the 7th day of November 1874 the Elephant first made its appearance in a cartoon by the same man. Both cartoons were pleasing to the public and they called for more... thus we have the two emblems for the two leading parties. They have never been officially accepted. Again may we say, thanks.

The folks up Croton way say that now that they have busses instead of street cars... they figure they will do much more traveling... and we don't blame them a bit... a bus pulls up to the curb... it's much easier riding (we hear) and the noise is somewhat reduced. What is that we hear... other sections want the same service. Oh me.

May we again call your attention to the classified ad page... it's chuck full of interesting facts.

Stock Market
Meets SupportSeveral Representative Issues
Climb Above Last
Night's CloseBy LESLIE GOULD
International News Service
Financial Writer

NEW YORK, Jan. 25.—The stock market met support today, after slumping fractions to almost two points at the start. Early losses were cut to a minimum, and several representative issues climbed above last night's closing levels.

Aviations paced recovery efforts. Foreign security markets, with few exceptions, were a shade lower. Most European currencies lost ground, particularly German marks. United Aircraft and Boeing each climbed about a point, while Douglas Aircraft converted a loss of 1/2 into a small gain.

In steel losses were substantially reduced. U. S. Steel moved up a point to 57 before the end of the first hour. Bethlehem halved a loss of more than a point, while Youngstown recovered all of a 1 1/2 point drop.

Chrysler in motors, Union Carbide in chemicals, Montgomery Ward in mail orders, American Telephone and U. S. Rubber were among the few stocks to get behind plus signs.

Extreme declines in rails, coppers, utilities and oils were greatly reduced.

Commodities showed little change

Mr. and Mrs. J. L. Mitchell are moving today to their new home on the Pulaski-New Wilmington road.

Mr. and Mrs. Adam Grell will move into the house vacated by Mr. Mitchell.

The Ladies Bible class of the Presbyterian church entertained their husbands at a dinner in the church dining room Friday evening.

Wednesday evening, January 25, special meetings will begin in the M. E. church. The Harmony gospel team of Johnstown, Pa., will assist the pastor, Rev. Doverspike. These meetings will continue until February 12.

Cavalier Crash Stirs Action For Safety Devices

Would Require Foreign Air-
lines Hauling Americans
To Conform

DE-ICING DEVICES ARE BADLY NEEDED

By LEON W. SHLOSS
International News Service Staff
Correspondent

WASHINGTON, Jan. 25.—Despite rising congressional dissatisfaction, foreign airlines transporting American passengers on routes touching United States ports cannot, for at least two years, be required to conform to safety and equipment standards set down for domestic lines by the civil aeronautics authority, it was learned today.

The crash and destruction of the British Imperial Airways flying boat, Cavalier, while it was enroute from New York to Bermuda on Saturday, was followed by demands on Capitol Hill that equipment of foreign aviation companies should be made subject to the same tests that American-owned and operated transport planes are forced to undergo.

Lack Of Safety Device

According to certain reports, the accident to the Cavalier, during which the lives of two United States citizens were lost, may have been caused by lack of de-icing features on the carburetors of the big ship. Rep. Maas of Minnesota immediately asked that all trans-oceanic planes be grounded until carburetor de-icing equipment, such as is carried by the American lines, is installed.

Maas' request was echoed by Senators Reynolds of North Carolina, Nye of North Dakota and Barbour of New Jersey, and by Reps. Boreas of Oklahoma and Lea of California. Barbour said he would bring the matter to the attention of the senate commerce committee, and urge legislation which would subject foreign aircraft to American performance and safety tests.

Officials of the aeronautics au-

thority, however, explained that under the agreement whereby Imperial Airways operates between Bermuda and the United States, it is carefully delineated that aircraft employed by the British operators must meet only the airworthiness requirements of the British government, while American equipment must be approved only by this government.

No Immediate Stopping

A permit, based on the agreement which was made between the two governments, was issued to Imperial Airways on April 17, 1937, for a period of 15 years. It is revocable only upon two years notice so, if this government gave notice of revocation today, it would be 24 months before Imperial would be forbidden to operate with its current equipment.

The civil aeronautics act of 1938, which reorganized supervision of aviation in this country, automatically cancelled all existing permits, but made mandatory issuance of new permits solely upon proof that a former permit is outstanding. All airlines, including Imperial, are operating under temporary permits at present, pending hearings, but Imperial is assured of issuance of a new permit under the aviation act. A CAA spokesman expressed the firm belief today that Imperial Airways voluntarily will take immediate steps to remedy the reported equipment defect that caused aviation's latest mishap. The authority has requested permission for a CAA observer to attend the British inquiry into the accident, so that full facts may be obtained.

DAILY DOZEN

(From the Medical Society of
the State of Pennsylvania)

Water, water, everywhere—in the human body.

It is in all the liquids of the body and in the tissues.

It distributes digested food to the cells of the body.

It collects wastes and assists in removing them from the body.

The water content of the body is subject to great change.

Water is continuously lost through lungs, skin and kidneys.

This loss effects the blood, which draws water from the tissues.

To restore the tissues to normal we drink quantities of water.

Water balance is regulated thru the sense of thirst.

Thirst sense arises in the pharynx, or mouth.

Lack of water for a long period causes distress and suffering.

Shipwrecked sailors go mad from lack of drinking water.

Do This If You're NERVOUS

Don't take chances on products you know nothing about or rely on temporary relief when there's need of a good general system tonic like time-proven Lydia E. Pinkham's Vegetable Compound, made especially for women from wholesome herbs and roots.

Let Pinkham's Compound help build up more physical resistance and thus aid in calming angry nerves, lessen distress from female functional disorders and make life worth living.

For over 60 years one woman has told another how to "smile thru" with Pinkham's—over 1,000,000 women have written in reporting glorious benefits—it MUST BE GOOD!

The Human Side Of The News

(By EDWIN C. HILL)

Copyright 1939 King Features Syndicate, Inc.

If by chance they put in that "time capsule" of our World's Fair a file of "Variety and Billboard," it is quite possible that archaeologists of the future will read more of our day from these irrelevant sheets than ever they will glean from the solemn lucubrations of heavy-hitting economists and sociologists.

They are, to a much greater degree, the voice of the Cynos. When "Variety" headlines that "Wall Street Lays an Egg," or that "Sticks Nix Hick Pix," or when "The Pipes of the Pitchmen" in Billboard proclaims a new economic drift in the hinterland, it is information right out of the feed-box, none the less authentic because it is in the vernacular.

On the contrary, more of the American dream is sublimated in the vernacular than in the outgiving of the pedagogues. Witness the wisdom and perspicacity of the late Will Rogers as against the now dusty 1931 governmental report on social trends. Which is the more alive?

Currently, "Variety" scouts all over the country are writing in to their paper that there are no more hicks. That's the matter with the moving picture business, they say. One correspondent writes:

"The radio, motor car and good roads have seen to that. Even the hemlets have to that. Even the weissenheimers and picture shoppers. In the past few years this country has reached the point where you can no longer successfully merchandise poor products."

He might have included national mass production and styling of good clothes at reasonable prices; the prolific machine output of beautiful furniture and household utensils and everything serving taste and convenience in the home; the effectiveness of air travel in wearing down provincialism; and, above all, the constantly stimulating effect of national advertising on national taste and national sophistication.

The old lady from Dubuque isn't too much dazzled when she flies to Chicago or New York. And the chances are that the appointments of her home and her arrangements for a dinner company do not suffer in the least from metropolitan comparison. Our citadel of big-town swank and snobbery has fallen. "Variety" is right. There are no more hicks and no more sticks. All of which is going to make the "pix" shake a leg and grow up with the country.

The strong men of Europe get away with murder in bragging about their terrific building projects. "I'm the kid that built the pyramid. I built it in a single night. When the stars above were shining bright."

The old song just about matches the chant of little Adolf Hitler as he dedicates his half-mile extension to the Reich chancellery. This, with all the other rootin', tootin' building exploits of the Reich are loudly press-agented all over the world and are contrived to put over the suggestion that the democracies are just a lot of paralytics who couldn't build a doghouse. The main idea is that Simon Legree, with a long bullwhip, is the only man who can get anything done. Somebody ought to call them.

With something like this in mind, I dropped in the other day at the headquarters of the New York Department of Parks in the old Armory building in Central Park. The record of what Bob Moses and his cohorts have done and are doing in the five boroughs of New York.

swiftly and effectively, would make the dictators pipe down if we ever thought it worth while to fan up our achievements as they do. I take at random a sheet listing developments in the Borough of Richmond alone since 1933. One single borough alone and by far the smallest of the five. They are as follows:

Archery courts, athletic fields with running tracks, baseball diamonds, indoor and outdoor basketball courts, bathing beaches, Bocci courts, bowling greens, bridge paths, coasting areas, croquet courts and cro-s-country runs, farmplots, field houses, fireplaces at picnic areas, football fields, golf courses, gymnasia and handball courts. There are hockey fields, horseshoe pitching courts, ice skating areas, lighted playgrounds, locker facilities, May party areas, model yacht ponds, models yacht storage, nature trails, paddle tennis courts and picnic areas; playgrounds with equipment, recreation piers, roller hockey rinks, roller skating courts, rowing shuffle board courts, skiing areas, soccer fields, stadia, swimming pools, table tennis, tennis courts, volleyball courts and wading pools.

And in other boroughs—in the whole great city—hundreds of areas of new park-playgrounds; the tremendous, awe-inspiring Tri-boro Bridge. There is, too, magnificent motor speed-way which eventually will completely border Manhattan Island.

Unimpeachable expert testimony is that, under our democracy, in many American cities, public and private building and development of various kinds is unmatched in the history of the world. But many of us are deceived by the louder cackle of the dictators over a much smaller egg.

Pymatuning Dam Now Five Years Old

Has Proven Benefit To Shenango Valley On Numerous Occasions

GREENVILLE, Pa., Jan. 25.—Five years ago this week the gates of the Pymatuning Reservoir were closed for the first time.

For more than four years the flow of the Shenango river has been regulated both in times of dry weather and times of flood. At least three serious flood damages in the Shenango Valley were avoided or reduced to a very slight amount during that time and countless weeks of dry weather had less drastic results upon industry in the Shenango Valley because of the release of stored water to make up natural losses.

Today the level of water stands about two feet below normal flow-line which is 1,008 feet above sea level. In emergency, another two feet can be added on this impounding basin by means of boards erected at the spillway to be used when occasion requires. This margin of safety has proved more than adequate for any period of sudden and voluminous rains, coming with a rapid runoff.

In the past five years it has been estimated that by flood control alone, it has paid for the entire investment of nearly \$4,000,000.

START MAKING 1940 AUTO TAGS

HARRISBURG, Jan. 25. — Manufacture of 2,350,000 pairs of 1940 motor vehicle license plates has been started at the Western Penitentiary, Pittsburgh, the Department of Welfare announced today. This represents an increase of 120,000 sets as compared with the Department of Revenue's distribution for 1939.

Made entirely by prison labor as a part of the Department of Welfare's trade-training program, next year's

tags will give constant employment to 100 men, and will require the use of 1000 tons of special steel; 8500 gallons of yellow paint; 3000 gallons of varnish; 6500 pounds of numeral ink; 3,000,000 sheets of wax paper; 2,267,000 envelopes, and 52,000 shipping cartons.

PILLS ARE FATAL
TO INFANT GIRL

(International News Service)
BUTLER, Pa., Jan. 25.—Coroner Dr. M. E. Headland Tuesday found that Ruth Marie Miller, 5, of Val-

encia, daughter of Edward D. Miller, died from the effects of eating candy pills intended for adults. The coroner said the child climbed up on a chair and reached the pills on a high mantle.

FRUIT STORAGE
SHOWS DECLINE

HARRISBURG, Jan. 26.—Apple and pear holdings in cold storage in Pennsylvania as of January 1, 1939, were well below the holdings of January 1, 1938, according to a report

by John H. Light, state secretary of agriculture.

Apple holdings on the first of this year totaled 1,422,000 bushels, as compared with 1,657,000 bushels on the same date last year. Pear holdings in cold storage on January 1, 1939, were 15,000 boxes and bushel baskets, compared with 31,000 on January 1, 1938.
